Face To Face With Political Islam:

Face to Face with Political Islam François Burgat, 2003 The portrayal of Islamic movements as a tide of religious fanaticism threatening the West and major participants in the coming clash of civilizations has provoked a multifaceted debate of great significance to the future of international relations This text argues that political Islam's desire to restore a culture distorted by colonization does not necessarily compromise its progress to more democracy and greater tolerance From Rabat to Gaza through Algiers and Cairo the author carried out his enquiry through interviews with prominent Islamists and he allows them to speak for themselves in the book Among the issues addressed are the relationship between Islam and modernity Islamism and women and questions of violence Bloomsbury Publishing [Understanding Political Islam](#)

François Burgat, 2019-12-20 [Understanding Political Islam](#) retraces the human and intellectual development that led François Burgat to a very firm conviction that the roots of the tensions that afflict the Western world's relationship with the Muslim world are political rather than ideological In his compelling account of the interactions between personal life history and professional research trajectories Burgat examines how the rise of political Islam has been expressed first in the Arab world then in its interactions with European and Western societies An essential continuation of his work on Islamism Burgat's unique field research and political trespassing marks an overdue challenge to the academic mainstream **Political**

vitriolic rhetoric against the United States by prominent Muslims the war against terrorism shifts from Afghanistan to the Philippines and Indonesia It is easy to believe Islam and Muslims are enemies of the West it is also wrong This sweeping survey of trends in the Muslim world contends that the issue is not whether Islam plays a central role in politics but what Muslims want To focus on radicalism and extremism blinds us from another trend liberal political Islam Proponents of liberal political Islam emphasize human rights and democracy tolerance and cooperation They face an uphill struggle as authoritarian regimes oppress opposition and use Islam to justify their undemocratic rule As people are denied avenues to participate and criticize as secular ideologies have failed religion has come to play a central role in politics The outcome of the struggle between extremists and liberals will determine the future of political Islam *No Bourgeoisie, No Moderation* Sebnem Gumuscu Orhan, 2010

Returning to Political Parties? Myriam Catusse, Karam Karam, 2010 Are Arab parties facing a predicament Are they paying the price of repression and limited pluralism Have they become obsolete to the benefit of other political groups and mobilization modes such as communities tribes *asabiyyat* or to the disadvantage of non governmental organizations associations and social movements While some predicted the end of parties in the region as a result of authoritarian political systems doesn't the recent transition from the one party rule towards a fragile plural party system in many countries put again party organizations in the spotlight Most of the time contemporary Arab parties have little mobilizing power Yet some are crawling out of underground activities and trying their hands at the exercise of power after years of oppositions Others and mainly on the Islamist arena assert themselves as first hand mobilization structures able in certain cases to compete with regimes in power This book addresses those research questions Emphasizing new and unpublished data the book's diverse contributions tackle holistically party life in six countries that have adopted very different political pathways Yemen Bahrain Lebanon Morocco Algeria and Iraq All the studies approach the decline or the revival of the parties from a long term historical perspective mainly with regard to political institutions in those six countries The studies focus on the rules of party games on the junction between the right to politics and political rights They reveal the fine tuning between ideological frameworks and political strategies They raise questions about the renewal of elites forms of militant activism the array of parties political activities particularly social ones They examine the issue of identity construction and political solidarities in the framework of the nation state or in contradiction with it As a final point the book inquires about how party life in those six countries accounts for political transformations possible democratization of regimes forms of domination that are played out within those regimes the emergence of the breakdown of leaderships and finally the rationale behind mobilization and collective action This book is published with the support of the program on Political Party Development in the Arab World Algeria Bahrain Iraq Lebanon Morocco and Yemen financed by the International Development Research Center Ottawa Canada This publication gathers a series of studies undertaken within this framework More studies are available on the project's website www.appstudies.org The opinions expressed in this book are the
