and Reconstructive Surgery is a comprehensive and practical guide to performing facial surgical procedures and contains a balance of aesthetic and reconstructive procedures that mirrors typical European practice. It has arisen as an initiative of the European Academy of Facial Plastic Surgery EAFPS and in accordance with this status is a comprehensive book that gives a complete update on the speciality as it is practised in Europe. The contributors have many years of clinical practice as well as research experience in facial plastic and reconstructive surgery. The book's practical how-to style is amply supported with excellent line illustrations and colour photographs and serves as a comprehensive reference for surgeons in clinical practice as well as in training. Each chapter is structured within a uniform framework to increase the accessibility of the text and in this way improves the book's utility as a textbook for trainees.

Maxillofacial Trauma and Esthetic Facial

Reconstruction Peter Ward Booth, Barry L. Eppley, Rainer Schmelzeisen, 2003. Full color text covering all aspects of the management of facial trauma. It provides detailed practical guidance from the moment the trauma patient arrives in hospital to the secondary procedures that may be needed for reconstruction of hard and soft tissue injuries of the face. All aspects of maxillofacial trauma are covered from management of the acute trauma case to secondary procedures to improve facial appearance and function. Comprehensive chapters on each facial bone injury including protocols for the overall management of each fracture. An extensive section on secondary procedures attempts to improve the final outcome of trauma. A review is included for all new biomaterials used in the repair of facial fractures. 750 color prints demonstrate clearly the final results from primary repair and secondary procedures. 250 surgical line illustrations show step by step surgical procedures.
