

# Evidence Check a fast and accurate summary of the latest health evidence

## What is an Evidence Check?

A Sax Institute Evidence Check is a concise summary of health evidence, on your specific issue, presented in an easy-to-read format.

Evidence checks are designed to take the hard work out of evidence gathering. Our team of experts will work with you to understand which questions you need answered, then draw on the most relevant peer-reviewed research to provide a fast and accurate review of the latest health evidence.

The Sax Institute has produced over 400 Evidence Checks (or their shorter variant, Evidence Snapshots) to support a range of decisions in health and social services, policies and programs.

## How does it work?

Evidence Checks are tailored to the individual needs of policy and program agencies, and follow a simple three-step process:

1. Our experienced knowledge brokers work with you to refine your issue into researchable questions
2. We source expert researchers to gather the best-quality evidence from around the world, tapping into the Sax Institute's 58 member organisations and an extensive database of specialised researchers
3. Evidence is summarised into a policy-friendly, easy-to-read format with high-level findings.

## Why choose an Evidence Check?

Evidence Checks are ideal for informing the development or revision of policies or programs, providing evidence to support funding decisions, and even revealing gaps in the current evidence. They can also support communications of evidence to other stakeholders.

"Our Evidence Check was brilliantly executed by the Sax Institute in terms of being timely, thorough, and targeted. We were really happy with the work and have since used it very extensively."
