Pharmacology and Treatment of Substance Abuse Lee M. Cohen, Frank L. Collins, Jr., Alice Young, Dennis E. McChargue, Thad R. Leffingwell, Katrina L. Cook, 2013-03 Given the prevalence of substance abuse in general clinical populations it is important for healthcare providers to have knowledge and skill in the treatment of these problems Evidence Based Practice EBP involves the integration of the best evidence with clinical expertise and patient values This text is designed as a bridge for practitioners that will provide up to date evidence reviews as well as information on how to best keep up with emerging trends in the field The editors have gathered expert authors to provide a much needed summary of the current status of the evidence based practice for both the assessment and treatment of specific substance use disorders

Casebook of Exemplary Evidence-Informed Programs that Foster Community Participation After Acquired Brain Injury Richard Volpe, 2013-06-01 Acquired brain injury ABI describes damage to the brain that occurs after birth caused by traumatic injury such as an accident or fall or by non traumatic cause such as substance abuse stroke or disease Today s medical techniques are improving the survival rate for people of all ages diagnosed with ABI and current trends in rehabilitation are supporting these individuals returning to live attend school and work in their communities Yet strategies on the best way of providing community participation vary among rehabilitation experts Because many of survivors of ABI do not and will not return to the status quo of their former lives it is important to examine what constitutes best and promising practices in this area This casebook is the world s first compilation of evidence informed programs that foster community participation for people of all ages with brain injury With this review we elicited and carefully examined existing programmatic efforts that combine emphasis on the individual the social and the service systems in a way that captures community participation as a complex process of interactive change in the person environment relationship programs that do not divorce ABI survivors from their contexts and where participation efforts facilitate positive change in the social and political context We considered community based programs to be programs where individuals and families actively participate in their own therapy rehabilitation and take responsibility for their own health or that of a family community

member Each case study chapter depicts a program chosen on its extraordinary merits to provide community participation to its clients The chapters are cowritten by the stakeholder and a researcher giving a complete perspective of how the program was established and continues to operate and provides evidence of excellence
