Stamos, 2008-02-11 In this book David Stamos wants to question whether and to what extent evolutionary biology shines light on the big questions debated in the humanities and social sciences The main theme in the book is the debate between evolutionary explanations and what has come to be known as the Standard Social Science Model This model is a way of looking at human nature that is commonly found in sociology behaviorism in psychology cultural anthropology Marxism women s studies and gay studies Stamos examines topics of race sex gender the nature of language religion ethics knowledge consciousness and ultimately the meaning of life from different perspectives **Beyond Wittgenstein's Poker** Peter Munz, 2004 Munz argues that the later Wittgenstein and Popper ought to be seen as complementing one another Popper believed that when truth is discovered meaning will take care of itself However since in Popper s view we can never

verify a general proposition we can never be certain of its truth There must therefore be a way of understanding what it means even though we cannot be sure of its truth The post Tractatus Wittgenstein enables us to see how propositions are meaningful regardless of whether we can ascertain their truth and thus fills a gap in Popper s philosophy At the same time Popper was able to make up a deficiency in Wittgenstein s later philosophy While Wittgenstein had had it that meaningful propositions can be generated in any social order Popper showed that if propositions are to be true as well as have meaning the socio political order in which they are put forward has to be free and open *Canadian Journal of Philosophy* ,2005

What Makes Us Moral? Neil Levy,2004-07-27 Is our motivation to be moral determined totally by our genes or are there other factors at work This is the only book to examine the field in its entirety starting with Darwin and moving on to explore how morality could have evolved and what we can learn from the discovery of so called genes for human behaviour In a powerful conclusion Levy argues that while our moral motives are products of evolution so are our immoral ones We are only truly human when we rise above our selfish genes *Dialogue and Universalism* ,2002 Toward synergy of civilizations

Watts,2007 For Christians there is nothing more important than understanding the significance of the life and teaching of Jesus It is when people gain an insight in to the mind of Jesus and understand how his teaching is relevant to them personally that a life changing relationship develops Here the insights of psychology are applied to the figure of Jesus as we encounter him in the gospels his personality and how it is portrayed the psychological significance of his teaching and the psychological processes involved in our reading of the gospels The contributions range from considerations of the psychology of Jesus himself and how he is portrayed through chapters covering the message sayings and encounters of Jesus in the gospels A final section explores what we bring to our own reading and interpretation of the gospels Accessible and approachable Jesus Psychology is a must for anyone interested in the psychology of religion who is looking to deepen their understanding of the gospels and the figure of Jesus Contributors Fraser Watts Justin J Megitt Liz Gulliford Sara Savage Beaumont Stevenson Jesse W Abell James M Day Leslie J Francis Everett J Worthington Jr
