

# CHAPTER (4)

## DESIGN OF DISTRIBUTION BOARDS, CABLE FEEDERS, WIRES, TRANSFORMERS AND GENERATORS

### 4.1 Introduction

This chapter introduces the calculation methods for distribution boards (main, sub-main, service and lighting), short circuit capacity, cable feeders, risers, wires, voltage drop, transformers and emergency diesel generator set.

### 4.2 Design Calculations of Distribution Boards:

The distribution boards contains main circuit breaker and sub-main circuit breakers. The calculation of the main circuit breaker may be carried out using two schemes. The first one is the load estimation technique and the second is to use the summation of the connected loads power of three phases, then calculate the current from the power relation.

#### 4.2.1 Design Calculations of Main Circuit Breakers:

##### ❖ Load Density Estimation Technique

Before starting the load estimation, area and load density of each place should be known. Load density differs from place to another as follow:

**Anthrax: History, Biology, Global Distribution, Clinical Aspects, Immunology, and Molecular Biology** Robert E. Levin, 2015-05-23 Following the post 9 11 distribution of anthrax spores through the U S mail and the resulting deaths of five individuals primarily due to initial misdiagnosis there has been a renewed interest in anthrax among clinicians and intelligence agencies particularly as a biological warfare agent This monograph brings forth essential knowledge about anthrax Included in this volume are the early history non natural outbreaks of anthrax characteristics of the causative organism *Bacillus anthracis* and its relationship to other members of the *B cereus* family Also included are reports on extensive clinical findings mechanisms of anthrax virulence and the genetics responsible for these virulence factors The extensive studies over the years regarding the development of veterinary and human vaccines and molecular studies including conventional PCR and real time PCR are explained in comprehensive detail with the help of tables figures and extensive references This eBook serves as an advanced presentation and reference work for individuals seeking detailed information regarding anthrax and as a primary guide for individuals pursuing studies on anthrax     [Vibration and Nonlinear Dynamics of Plates and Shells](#) Meilan Liu ,Cho W. S. To, 2014-03-25 This e book focuses on the vibrational and nonlinear aspects of plate and shell structure dynamics by applying the finite element model Specifically shell finite elements employed in the computational studies included in this book are the mixed formulation based lower order flat triangular shell finite elements Topics in the book are covered over nine chapters including the theoretical background for the vibration analysis of plates and shells vibration analysis of plate structures shells with single curvature shells with double curvatures and box structures single cell and double cell and the theoretical development for the nonlinear dynamic analysis of plate and shell structures In addition to presenting the steps in the derivations of the consistent element stiffness and mass matrices constitutive relations of elastic materials and elasto plastic materials with isotropic strain hardening yield criterion return mapping configuration and stress updating strategies and numerical algorithms are presented and discussed The book is a suitable reference for advanced undergraduates and post graduate level engineering students research engineers and scientists working in the field of applied physics and engineering     [Organoselenium Chemistry Between Synthesis and Biochemistry](#) Claudio Santi, 2014-04-30 The use of organoselenium reagents as catalysts is a common thread that runs through the chapters of this book introducing important aspects of the modern organoselenium chemistry organocatalysis green chemistry bioinspiration antioxidant activity The eBook covers the most recent developments in the classical synthetic application of organoselenium reagents such as electrophilic nucleophilic and free radical reagents The volume also features a discussion on the synthesis and the synthetic applications of some emerging classes of selenium compounds such as hypervalent selenium species and selenoamides and also addresses some biological aspects such as the antimicrobial activity of organoselenium derivatives and the biochemistry of selenoproteins A number of eminent scientists from different research

groups were involved in the preparation of the 13 chapters of the book making *Organoselenium Chemistry Between Synthesis and Biochemistry* an excellent reference about selenium chemistry for researchers and graduate students in the field of selenium chemistry      *Frontiers in Clinical Drug Research: Hematology* Atta-ur-Rahman, 2014-06-20 *Frontiers in Clinical Drug Research Hematology* is an eBook series that brings updated reviews to readers interested in learning about advances in the development of pharmaceutical agents for the treatment of hematological disorders The scope of the eBook series covers a range of topics including the medicinal chemistry pharmacology molecular biology and biochemistry of natural and synthetic drugs employed in the treatment of anemias coagulopathies vascular diseases and hematological malignancies Reviews in this series also include research on specific antibody targets therapeutic methods genetic hemoglobinopathies and pre clinical clinical findings on novel pharmaceutical agents *Frontiers in Clinical Drug Research Hematology* is a valuable resource for pharmaceutical scientists and postgraduate students seeking updated and critically important information for developing clinical trials and devising research plans in the field of hematology oncology and vascular pharmacology The first volume of this series features 6 chapters that cover a variety of topics including Computational methods molecular docking and molecular dynamics simulation Recent advances in the treatment of Beta Thalassemia Major Research on multiple myeloma and leukemia Molecular imaging in hematology      **Negotiation and Argumentation in Multi-Agent Systems** Fernando Lopes, Helder Coelho, 2014-04-08 Agent technology has generated lots of excitement in the past decade Currently multi agent systems MAS composed of autonomous agents representing individuals or organizations and capable of reaching mutually beneficial agreements through negotiation and argumentation are becoming increasingly important and pervasive Research on both automated negotiation and argumentation in MAS has a vigorous exciting tradition However efforts to integrate both areas have received only selective attention in the academia and the practitioner literature A symbiotic relationship could significantly strengthen each area s progress and trigger new R D challenges and prospects toward the advancement of automated negotiators and argumentation tools *Negotiation and Argumentation in Multi Agent Systems* presents the current state of the art on the theory and practice of automated negotiation and argumentation in MAS The eBook encourages the interaction between these two areas in data modelling and attempts to converge them toward mutual enhancement and synergism Equally the monograph brings together researchers and industry practitioners specialized in these areas to share R D results and discuss existing and emerging theoretical and applied problems This book is intended as a textbook for graduate courses and a reference book for researchers advanced level students in Computers Science and IT practitioners      **Helicobacter Pylori: A Worldwide Perspective 2014** Buzás György Miklós, 2014-03-12 This e book covers *Helicobacter pylori* research as it looks in 2014 The discovery of the bacterium in 1982 by B J Marshall and R I Warren had a tremendous impact on basic research and clinical medicine resulting in the past 3 decades in more than 34 000 published articles The editor of this volume and the contributing authors have compiled a

unique collection of chapters dealing with the microbiology epidemiology clinical diagnosis and treatment of H pylori infections in a country specific manner with contributors having the opportunity to present the peculiarities and specifics of Helicobacter research in their area or country without overlapping any other previously published e book This e book is a useful reference for gastrointestinal physicians and medical researchers seeking the latest information related to H pylori

**Frontiers in Clinical Drug Research: Diabetes and Obesity** Atta-ur-Rahman, 2014-05-20 Frontiers in Clinical Drug Research Diabetes and Obesity is an eBook series that brings updated reviews to readers interested in advances in the development of pharmaceutical agents for the treatment of two metabolic diseases diabetes and obesity The scope of the eBook series covers a range of topics including the medicinal chemistry pharmacology molecular biology and biochemistry of natural and synthetic drugs affecting endocrine and metabolic processes linked with diabetes and obesity Reviews in this series also include research on specific receptor targets and pre clinical clinical findings on novel pharmaceutical agents Frontiers in Clinical Drug Research Diabetes and Obesity is a valuable resource for pharmaceutical scientists and postgraduate students seeking updated and critically important information for developing clinical trials and devising research plans in the field of diabetes and obesity research The first volume of this series features 6 chapters that cover a variety of topics including Angiotensin blockers Agents targeting advanced glycation end products Drugs and the peroxisome proliferator activated receptors Topical Drugs for diabetic complications Research on Liraglutide Research on MicroRNAs as agents for diabetes treatment *Modern Applications of High Throughput R&D in Heterogeneous Catalysis* Alfred Hagemeyer, Anthony F. Volpe, 2014-04-04 This eBook covers the application of high throughput R D to both fundamental and applied catalysis including catalyst synthesis characterization and testing in various reactor types Chapters include topics such as applications ranging from optimizations of established industrial catalysts to the discovery of innovative new materials examples of the development of innovative parallel characterization methods and cases of real catalyst testing in small scale reactor systems Readers will also find chapters that cover commodity chemicals produced using continuous gas phase processes as well as fine chemicals produced in liquid phase batch reactors The potential of industrial chemicals production from biorenewable feedstocks is also presented The steadily improving high throughput workflows are today being applied to relevant reactions and targets such as hydrotreating Deacon oxidation Fischer Tropsch propane dehydrogenation C4 oxidation methane coupling exhaust gas catalysis bio based Nylon fuel cells and vitamins The topics presented in this eBook have been contributed by researchers from academia as well as industry making this eBook a well balanced reference which could be of particular interest to professional industrial or service R D labs **THERAPEUTIC REVOLUTION** The History of Medical Oncology from Early Days to the Creation of the Subspecialty Pierre R. Band, 2014-03-28 Cancer is a disease responsible for several million annual deaths among humans worldwide However advances in healthcare which include breakthroughs in science and medicine as well as access to medical treatment have

improved the survival rate of cancer patients over the last few decades Therapeutic Revolution relates the story of one of the great scientific tales of the twentieth century how the field of medical oncology was created and its development owing to medical and scientific breakthroughs The book unfolds the pre clinical and clinical concepts and innovations that led to the creation of the medical subspecialty now known as medical oncology Therapeutic Revolution is the first book ever written on the events that led to this subspecialty of internal medicine It relates the recollection of key events obtained from interviews of the pioneers who laid the foundations of medical oncology as well as the author s own experience of the pre specialty era of medical practice The book is essential reading for medical oncologists and for all readers interested in the history of cancer treatment and also serves as a historical primer for medical students learning oncology *Cutting Edge Therapies for Cancer in the 21st Century* Pier Paolo Claudio,Paraskevi Vogiatzi,2014-04-23 Cancer is a broad group of diseases involving unregulated cell growth with elevated death rates as more people live in old age with mass lifestyle changes occurring in the world The causes of cancer are diverse complex and still only partially understood The chances of surviving the disease vary remarkably by the type and location of the malignancy and the extent of disease at the start of treatment Early cancer detection is proving to be a valid approach Cancer can be detected in a number of ways including the presence of certain signs and symptoms screening tests or medical imaging Cancer therapy is dynamically changing and revision and change in patient management is constant as our knowledge increases Cancer is routinely treated with chemotherapy radiation therapy and surgery Tailored cancer targeted therapy is becoming an emerging objective of today In this book a constructive group of cancer research experts bring the reader their shared vision to give an extensive and realistic view of individual tumors such as breast oral prostate gastric and neuroendocrine tumors New and contemporary terms and concepts in genetics and epigenetics diet anticancer treatments and anticancer drug delivery systems are introduced in this volume This reference highlights present experimental strategies and key findings that enhance our understanding of cancer and of future therapies This eBook is aimed at a broad audience of undergraduates medical students PhDs cancer researchers and also cancer patient families with the goal to conceive a curiosity about the subjects presented that will hopefully lead to further studies **The Publishers Weekly** ,2002 THE Journal ,2002 *Rural Libraries* ,2002
