Women who fight in wars also have to fight for their right to do so But what are the obstacles impeding their progress in achieving equal status as both active service members and as veterans This book written by a team of female veterans and military scholars demonstrates the ways in which women service members and veterans experience a unique set of challenges when attempting to both honorably serve their country and reintegrate into civilian society following military service These challenges include but are not limited to discrimination staggering rates of suicide and barriers to obtaining treatment for military sexual trauma and other critical benefits through the U S Department of Veterans Affairs Women Veterans Lifting the Veil of Invisibility examines current service related policies and gender in the military s hierarchical power structure Here a confluence of white male privilege and entitlement the culture of domination and the effeminization of the enemy manifest themselves as a backlash against women calling into question a woman s agency and her very status as a citizen Special attention in the book is paid to the civil military divide representative bureaucracy and the function of the military and civilian justice systems Moreover the need for appropriate healthcare policies and structures is examined within a wicked problems framework The authors conclude that the responsibility for women veterans and all veterans for that matter must become a matter of compelling government interest This ground breaking book is required reading for practitioners of public policy and administration with an interest in military and veterans affairs public health NGOs and activist groups as well as scholars of gender and public service public personnel management and nonprofit management Los Angeles Magazine , 2003-11 Los Angeles magazine is a regional magazine of national stature Our combination of award winning feature writing investigative reporting service journalism and design covers the people lifestyle culture entertainment fashion art and architecture and news that define Southern California Started in the spring of 1961 Los Angeles magazine has been addressing the needs and interests of our region for 48 years The magazine continues to be the definitive resource for an affluent population that is intensely interested in a lifestyle that is uniquely Southern Californian **Civic Education** Ibiyemi Oyeneye, Michael Onyenwenu, Robert Akaniro, 2011-01-01 Civic Education for Junior Secondary Schools is an exceptional course in Civic Education for Junior Secondary School Students The course has been written in full compliance with the Basic Education curriculum provided by the Nigerian Educational Research and Development Council and should fully equip the students for the Junior Secondary School Examination Every book in the course has been written in simple language to make it easy for the JS Students to understand Each topic in every book has been fully developed with examples the students can easily grasp and identify with Very clear apt pictures have also been used to illustrate the lessons in the books The authors are highly experienced teachers and WAEC NECO examiners

who have also authored several highly successful Secondary School textbooks The Civic Textbook Aleksandar Saša Zeković,2005 **Civic Education for Diverse Citizens in Global Times** Beth C. Rubin,James M. Giarelli,2013-10-11 This book explores four interrelated themes rethinking civic education in light of the diversity of U S society re examining these notions in an increasingly interconnected global context re considering the ways that civic education is researched and practiced and taking stock of where we are currently through use of an historical understanding of civic education There is a gap between theory and practice in social studies education while social studies researchers call for teachers to nurture skills of analysis decision making and participatory citizenship students in social studies classrooms are often found participating in passive tasks e g quiz and test taking worksheet completion listening to lectures rather than engaging critically with the curriculum Civic Education for Diverse Citizens in Global Times directed at students researchers and practitioners of social studies education seeks to engage this divide by offering a collection of work that puts practice at the center of research and theory *Jss Civic Education* Ibiyemi Oyeneye,Michael Onyenwenu,Robert Akaniro,2013-08-26 Civic Education for Junior Secondary Schools is an exceptional course in Civic Education for Junior Secondary School Students The course has been written in full compliance with the Basic Education curriculum provided by the Nigerian Educational Research and Development Council and should fully equip the students for the Junior Secondary School Examination Every book in the course has been written in simple language to make it easy for the JS Students to understand Each topic in every book has been fully developed with examples the students can easily grasp and identify with Very clear apt pictures have also been used to illustrate the lessons in the books The authors are highly experienced teachers and WAEC NECO examiners who have also authored several highly successful Secondary School textbooks **Project Citizen** We the People-- Project Citizen,Center for Civic Education (Calif.),National Conference of State Legislatures,2010 **Civic Education & Culture** Bradley C. Civics Frank David Boynton, 2023-07-18 Learn the ins and outs of civic education with this informative guide by Frank David Boynton. Designed for students at the secondary school level, this book provides a comprehensive overview of the principles of democracy, the workings of the American government, and the responsibilities of citizenship. A must read for students and educators alike. This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America and possibly other nations. Within the United States, you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work. Scholars believe and we concur that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant.

Civic Education in the Age of Mass Migration Angela M. Banks, 2021-08-13 This important book offers a more inclusive approach to preparing students to be responsible participants in a democratic society. Civic education generally operates through the lens of citizenship, where students learn what good citizenship is and what good citizens do. Yet the citizenship lens fails to identify the wide range of school children and their families who participate in economic, political, and social life. *Civic Education in the Age of Mass Migration* examines the exclusionary aspects of citizenship and offers democratic societies an alternative approach that includes all long-term residents regardless of citizenship and immigration status. Banks reimagines a civic education curriculum that gives students the knowledge and skills they will need to assist the United States in becoming a more perfect union. **Book Features:** A brief overview of the history of civic education and why citizenship status and immigration status should be explicitly addressed. An examination of the economic, political, and social forces shaping immigration law. A new way to conceptualize membership based on three principles: popular sovereignty, participation, and the *jus nexi* principle. Classroom activities and discussion questions to help civic educators incorporate the idea of citizenship boundaries into their curriculum. *Project Citizen*, 2008 This process-oriented program for use in the middle grades focuses on the role of state and local governments in the U.S. federal system.

Making Civics Count David E. Campbell, Meira Levinson, Frederick M. Hess, 2012-10-01 By nearly every measure, Americans are less engaged in their communities and political activity than generations past. So write the editors of this volume who survey the current practices and history of citizenship education in the United States. They argue that the current period of creative destruction, when schools are closing and opening in response to reform mandates, is an ideal time to take an in-depth look at how successful strategies and programs promote civic education and good citizenship. *Making Civics Count* offers research-based insights into what diverse students and teachers know and do as civic actors and proposes a blueprint for civic education for a new generation that is both practical and visionary. *We the People: The Citizen & The Constitution Elementary School*, 2003 Introduces the history and principles of constitutional democracy. Teacher's ed includes performance assessment materials and a bibliography of children's literature.
