In Search of an Economic Quantum In the World Economy. Aline de Valdomond,2013-08-07 Considering the World Gross Domestic Product W GDP as a representation of all the production by humankind is it possible to define a smallest common quantitative measure an economic quantum at an individual level whose aggregate will lead to the word GDP Is this economic quantum the GDP by an individual produced using his sole physical forces of some 180 kWh year Or is this economic quantum the GDP of an ancient Roman or Greek democratic citizen with his 100 slaves with 15 000 kWh year In any case the average individual today in Europe uses 47 000 kWh per year which is much higher than expected if each citizen had only 100 virtual slaves at his disposal Written by a non specialist a scientific economist a student this essay is a kind of visit through the arcana of modern finance It reviews elements of economic theories applies a historical perspective reviews the link between population economy and ecology and the question of the ecological balance discovers systemic economic wars see why the current institutional and legal setting is inadequate then derive a few practical aphorisms and a speculative model of a world organisation A Concise History of the World Merry E. Wiesner,2015-09-23 A concise history of the world from the Paleolithic to the present telling the story of humans as producers and reproducers Stone Age Economics Marshall Sahlins,2013-04-03 Stone Age Economics is a classic of economic anthropology ambitiously tackling the nature of economic life and how to study it comparatively This collection of six influential essays is one of Marshall Sahlins most important and enduring works claiming that stone age economies formed the original affluent society The book examines notions of production distribution and exchange in early communities and examines the link between economics and cultural and social factors This edition includes a new foreword by the author *The Old World Paleolithic and the Development of a National Collection* Michael D. Petraglia,2004 **Stone Age Economics** Marshall David Sahlins,1989 **Stone age economics** M. Sahlins,2011 **12 Things to Know about the Paleolithic Age** Meg Marquardt,2020 The Old Stone Age was the time of the earliest humans Chapters cover how these early people left Africa and spread around the world how they made tools to solve life's problems and the role of Paleolithic women who probably did a lot more than stay home and care for the kids Each chapter includes attention grabbing photos and fascinating facts Sidebars go deeper and prompts invite readers to think for themselves A Timeline of the Paleolithic Era gives a big picture view **The Neolithic Revolution** In60learning,2018-09-16 Smarter in sixty minutes Get smarter in just 60 minutes with in60Learning Concise and elegantly written non fiction books and audiobooks help you learn the core subject matter in 20% of the time that it takes to read a typical book Life is short so explore a multitude of fascinating historical biographical scientific political and financial topics in only an hour each The shift from the Paleolithic to Neolithic periods represents a watershed moment in human history While many may consider the humans of both stone ages to be unintelligent barbarians this brief history proves that the humans of yesteryear were just as smart as we are today Between 10 000 BCE and 2000 BCE they instituted

revolutionary changes in human life All over the globe formerly nomadic people began settling into villages farming and creating hi tech stone inventions Thanks to new research tools exciting discoveries are popping up all over the world revealing more about the mysterious early humans behind such wonders as Stonehenge The Gender of Debt Mariano Pavanello,2019-03-27 This book demonstrates from a historical and an economic point of view how the female contribution has been so determinant in the success of our species and how it is linked to male dominance Male hunting and female gathering were the two forces of production during 99% of the life of mankind on Earth Ethnographic evidence shows that female gathering is more productive and less time consuming than male hunting Therefore the prehistoric communities of Homo sapiens could manage their social labor time in the most productive way only if women lent their time to men through the supply of basic energy a debt that men incurred since the dawn of history but never acknowledged It is time now to give the gender economic relations the crucial place they deserve in a theory of human cooperation and sociality without forgetting that it is necessarily a theory of social inequality **The Economic Life of the Ancient World** Jules Toutain,1927 **Transitions Before the Transition** Erella Hovers,Steven Kuhn,2007-01-06 Modern human origins and the fate of the Neanderthals are arguably the most compelling and contentious arenas in paleoanthropology The much discussed split between advocates of a single early emergence of anatomically modern humans in sub Saharan Africa and supporters of various regional continuity positions is only part of the picture Equally if not more important are questions surrounding the origins of modern behavior and the relationships between anatomical and behavioral changes that occurred during the past 200 000 years Although modern humans as a species may be defined in terms of their skeletal anatomy it is their behavior and the social and cognitive structures that support that behavior which most clearly distinguish Homo sapiens from earlier forms of humans This book assembles researchers working in Eurasia and Africa to discuss the archaeological record of the Middle Paleolithic and the Middle Stone Age This is a time period when Homo sapiens last shared the world with other species and during which patterns of behavior characteristic of modern humans developed and coalesced Contributions to this volume query and challenge some current notions about the tempo and mode of cultural evolution and about the processes that underlie the emergence of modern behavior The papers focus on several fundamental questions Do typical elements of modern human behavior appear suddenly or are there earlier archaeological precursors of them Are the archaeological records of the Middle Paleolithic and Middle Stone Age unchanging and monotonous or are there detectable evolutionary trends within these periods Coming to diverse conclusions the papers in this volume open up new avenues to thinking about this crucial interval in human evolutionary history The Palaeolithic Settlement of Asia Robin Dennell,2008-12-18 This book provides the first analysis and synthesis of the evidence of the earliest inhabitants of Asia before the appearance of modern humans 100 000 years ago Asia has received far less attention than Africa and Europe in the search for human origins but is no longer considered of marginal importance Indeed a global understanding of human

origins cannot be properly understood without a detailed consideration of the largest continent In this study Robin Dennell examines a variety of sources including the archaeological evidence the fossil hominin record and the environmental and climatic background from Southwest Central South and Southeast Asia as well as China He presents an authoritative and comprehensive framework for investigations of Asia s oldest societies challenges many long standing assumptions about its earliest inhabitants and places Asia centrally in the discussions of human evolution in the past two million years **The Economic Life of the Ancient World** Jules François Toutain,1958 **The End of the Paleolithic in the Old World** Lawrence Guy Straus,1986 Papers from a symposium held at the 50th Annual Meetings of the Society for American Archaeology Denver May 5 1985 *The Threshold of Civilization* Walter Ashlin Fairservis,1975 EUROPEAN ECONOMIC HISTORY. ,1972 **The Economic Life of the Ancient World** Jean-Philippe Levy,1967 *The Roots of Civilization* Alexander Marshack,1991 Very Good No Highlights or Markup all pages are intact Distorting the Past Linda R.
