EU Public Procurement Law Christopher Bovis, 2008-01-01 This book will serve as an essential resource for anyone interested in the legal regime of public procurement. It offers a comprehensive and topical analysis of EU law and its interaction with national law and policies in an area of growing economic importance. Ruth Nielsen, Copenhagen Business School, Denmark. EU Public Procurement Law addresses one of the most important areas of European integration. With a magnitude approaching 1 trillion euros in supplies, works and services and representing almost 12 percent of the European Union's GDP, public procurement regulation represents a key objective of the vision of the European Union in becoming the most competitive economy in the world by 2010. In this book, Christopher Bovis offers a clear and lucid assessment of the new public procurement legal framework and its interplay with policy within the European Union and the member states. The new regime is based on three principles: simplification, modernization and flexibility, and the book considers the new directives which are intended to simplify and modernize a regulatory regime that aims to gradually establish a public market in the European Union. The book exposes the instrumental role of the European Court of Justice in shaping many of the newly introduced concepts in public procurement regulation. Finally, the author provides for the most comprehensive taxonomy and codification of case law on public procurement. This comprehensive overview of enforcement and compliance of public procurement at European and national levels will be of great interest to academic researchers and lawyers within the EU, USA, Canada and other continents. It will also appeal to postgraduate students in law, policy and management, judges at the European Court of Justice and national courts, and policy makers at European, international and national levels. [Public Procurement in the European Union](#) C. Bovis, 2005-08-02 This book provides invaluable insights to one of the most difficult areas of European integration. Public procurement represents an instrument of policy choice for governments and its regulation interacts with a variety of policies including the promotion of competition, employment, social policy and environmental protection. The author vividly elaborates on the built-in flexibility of the newly enacted rules and provides a codified analysis of their interpretation by the EU judiciary. Finally, considerable debate is dedicated to future dimensions of public procurement regulation in the form of public-private partnerships and concessions. **The Law of EU Public Procurement** Christopher Bovis, 2015 A clear, comprehensive and analytical guide to public procurement law in the European Union, EU and its Member States, focusing on the jurisprudence of the European Court of Justice (CJEU). EU Public Contract Law Roberto Caranta, Gunilla Edlestam, Martin Trybus, 2013-12-13 This book analyses many aspects of the present EU regulatory framework for public contracts especially public procurement taking the ongoing reform process into account First several chapters discuss the regime of the Public Sector Procurement Directive 2004/18/EC governing the procurement activities of the EU Member States the coverage of the Directive qualification and technical specifications procurement procedures and award criteria A specific chapter describes the EU principles applicable to contracts not covered or partially covered by the Directive which have been the subject of relevant developments in the case law of the European Court of Justice Another chapter covers sustainable procurement Second three chapters are devoted to special procurement regimes namely public private partnerships defence and utilities Third the review and remedies regime for public procurement is covered in two chapters Fourth one chapter goes beyond public procurement and looks at the effect of EU law on the contract management of public contracts after their conclusion Fifth three chapters go beyond the regulation of the Member

States and look at the EU law regime applicable to contracts of the EU institutions Sixth and finally a concluding chapter provides a critique of the EU legal framework by an author from outside the EU

EC Public Procurement Christopher Bovis, 2006 Public procurement represents a specialist yet important area of practice in the European and international business and commercial legal environment This book offers an inclusive coherent and practical analysis of the relevant law and jurisprudence with the principal focus on the case law of the European Court of Justice in the public procurement field The author provides the reader with a taxonomy of the themes and reasoning that has been used by the Court and a convenient conceptual framework for practitioners and academics alike

Contribution to Growth Christopher Bovis, 2019 This study evaluates the objectives of legislative actions in the area of public procurement during the 7th and 8th legislature and assesses the contribution of current initiatives to the achievement of EU objectives This document provides for a critical analysis of the legal framework of the public procurement regime and identifies the future potential of European public procurement This document was prepared by Policy Department A Economic and Scientific Policy at the request of the Committee for the Internal Market and Consumer Protection

Innovation and Better Synergies of Public Procurement with Other Policies Christopher Bovis, 2018 This document provides the legal and policy background for the interface of the public procurement regime with policies which promote socio economic and environmental objectives and allow innovative and strategic procurement to deploy its application in alignment with the European 2020 Growth Strategy This document was prepared by Policy Department A Economic and Scientific Policy at the request of the Committee for the Internal Market and Consumer Affairs

Reformation or Deformation of the EU Public Procurement Rules Grith Skovgaard Ølykke, Albert Sanchez-Graells, 2016-11-25 Using an innovative law and political science methodology this timely book carries out a critical assessment of the reform of the EU public procurement rules It provides a rich account of the policy directions and the spaces for national regulatory decisions in the transposition of the 2014 Public Procurement Package as well as areas of uncertainty and indications on how to interpret the rules in order to make them operational in practice Most EU law research focuses on the content of rules and the impact of case law on their interpretation and application It rarely discusses how the CJEU s case law influences the creation of new rules or the way EU law makers enact them issues which conversely are a staple for political scientists By blending both approaches this book finds that political science provides a useful framework to describe the law making process and shows that the influence of the CJEU was significant Though the specific case studies identify many reforms the ultimate assessment is that EU public procurement law was deformed Offering a clear contribution

to the emerging scholarship on flexible EU law making this book's novel methodology will appeal to scholars and students of both law and political science. Law and policy makers as well as legal practitioners will also find its practical approach compelling.

Discretion in EU Public Procurement Law Sanja Bogojevic, Xavier Groussot, Jörgen Hettne, 2019-05-30

The EU public procurement regime has recently undergone an overhaul and now allows Member States and their contracting authorities to pursue strategic goals via public procurement including environmental and social objectives. The extent to which such interests may be accommodated in the procurement process is ultimately determined by the broader legal context in which the EU public procurement regime exists, which raises pressing questions regarding the scope and limits of Member States' discretion. This volume scrutinises these new legal acts, particularly Directive 2014/24/EU focusing on discretion and engaging with questions central to the public procurement regime against the EU legal backdrop including internal market law and environment law as well as law beyond the EU.
