

An anatomical illustration of a human torso, focusing on the right side. The image shows a cross-section of the rib cage, with the lungs and heart visible in the background. The foreground is dominated by a large, pink, striated muscle, likely the pectoralis major. A network of blue and red blood vessels (arteries and veins) and green, branching nerves is shown running through and around the muscle. The overall style is realistic and detailed, typical of medical textbooks.
