Entrepreneurship Hisrich 8th Edition Study Guide:

Entrepreneurship and Management in Forestry and Wood Processing Franz Schmithüsen, Bastian Kaiser, Albin Schmidhauser, Stephan Mellinghoff, Karoline Perchthaler, Alfred Kammerhofer, 2015-05-08 Forestry has long been in a rather favourable position in offering a valuable raw material source in high demand. However, with rapidly changing end user demands and cost competitiveness within the forest and wood chain as a whole, the industry is needing to adapt. Explaining entrepreneurial action as part of a chain of comprehensive value added processes leads to a new perception of forest production and wood processing. This book applies the main concepts of modern managerial science to the world of forestry and is the perfect book for students studying forestry and wood processing as well as entrepreneurs and managers within the sector. Topics are covered from an entrepreneurial perspective and include perspectives from accounting, finance, economics, supply chain management, marketing and strategy.

Strategy Geoff Goldman, Cecile Nieuwenhuizen, 2006 This book introduces learners to the fundamental concepts of strategic management of a small business in the context of increasing globalisation. The text is designed to provide learners with the tools to analyse, formulate and implement strategies that will enhance the performance of any small business.

Arts Management Carla Walter, 2015-05-22 Arts Management is designed as an upper division undergraduate and graduate level text that covers the principles of arts management. It is the most comprehensive up to date and technologically advanced textbook on arts management on the market. While the book does include the background necessary for understanding the global arts marketplace, it assumes that cultural fine arts come to fruition through entrepreneurial processes and that cultural fine arts organizations have to be entrepreneurial to thrive. Many cases and examples of successful arts organizations from the United States and abroad appear in every chapter. A singular strength of Arts Management is the author's skilful use of in-text tools to facilitate reader interest and engagement. These include learning objectives, chapter summaries, discussion questions and exercises, case studies and numerous examples and cultural spotlights. Online instructor's materials with PowerPoints are available to adopters.

Africa and Beyond Patrick J. Ebewo, Mzo Sirayi, Ingrid Stevens, 2014-07-24 Africa and Beyond Arts and Sustainable Development is a massive undertaking by thoughtful theorists and practitioners in the creative cultural industry. The combined effect of the volume is to disabuse the fixed prevailing conception of the role of culture in society, a view that consigns the arts to the periphery of social life, devoid of any meaningful contribution to the alleviation of poverty and general development. Contrary to this view, the volume presents a more comprehensive, meaningful, insightful set of perspectives and paradigms that ascribe agency to creative cultural products in all facets of human development. The usefulness of the volume extends beyond the industry itself. It is meant for a broader readership and is therefore highly recommended for specialists and the public at large.
