Public Relations and Communication Management Krishnamurthy Sriramesh, Ansgar Zerfass, Jeong-Nam Kim, 2013-06-07

Public Relations and Communication Management serves as a festschrift honoring the work of public relations scholars James E Grunig and Larissa A Grunig. Between them the Grunigs have published 12 books and more than 330 articles, book chapters and various academic and professional publications and have supervised 34 doctoral dissertations and 105 master's theses. This volume recognizes the Grunig's contributions to public relations scholarship over the past four decades. To honor the Grunig's scholarship, this volume continues to expand their body of work with essays from renowned colleagues, former students and research associates. The chapters discuss current trends in the field as well as emerging issues that drive the field forward. Sample topics include theories and future aspects of the behavioral strategic management approach to managing public relations and its linkages and implications to related subfields and key field issues. Contributions stimulate academic discussion and demonstrate the relevance of applied theories for the practice of public relations and communication management with up to date concepts, theories and thoughts.

On Line Planning: Towards Creative Problem-solving Harold Sackman, Ronald L. Citrenbaum, 1972

Introduction to Strategic Public Relations Janis Teruggi Page, Lawrence J. Parnell, 2017-11-30

Winner of the 2019 Textbook Academic Authors Association's The Most Promising New Textbook Award. How can public relations play a more active role in the betterment of society? Introduction to Strategic Public Relations: Digital, Global and Socially Responsible Communication prepares you for success in today's fast-changing PR environment. Recognizing that developments in technology, business and culture require a fresh approach, Janis T. Page and Lawrence Parnell have written a practical introductory text that aligns these shifts with the body of knowledge from which the discipline of public relations was built. Because the practice of public relations is rooted in credibility, the authors believe that you must become ethical and socially responsible communicators more concerned with building trust and respect with diverse communities than with creating throwaway content. The authors balance this approach with a focus on communication theory, history, process and practice and on understanding how these apply to strategic public relations planning as well as on learning how to create a believable and persuasive message.

Key Features: Chapter opening Scenarios capture your attention by discussing current PR challenges such as the Wells Fargo cross-selling VW emissions cover-up and P G's Like a Girl campaign and thus frame the chapter content and encourage active reading. At the end of the chapter you explore various aspects of socially responsible communication to solve the PR challenge. Socially Responsible Case Studies in each chapter illustrate the key responsibilities of a modern public relations professional such as media relations, crisis communications, employee communications, applied communications, research and corporate and government specific communications. Each case features problem-solving questions to encourage critical thinking. Social Responsibility in Action boxes feature short specific social responsibility cases such as Universal's NoFoodWasted, Nespresso in South Sudan and

Merck's collaboration with AIDS activists to highlight best practices and effective tactics showing the link between sound public relations strategy and meaningful social responsibility programs Insight boxes spark classroom discussion on particularly important or unique topics in each chapter Personality Profile boxes will inspire you with stories from PR veterans and rising stars such as the U.S. CEO of Burson Marsteller the Chief Communication Officer of the United Nations Foundation and the Executive VP at HavasPR
