*Pioneering Solutions in Supply Chain Management* Wolfgang Kersten, 2010      Electronic Batch Recording Solutions Monika Futschik, 2017-10-11 Monika Futschik introduces an evaluation model that allows a holistic assessment of the advantages and disadvantages of electronic batch recording solutions versus traditional paper batch ticket solutions. In comparison to former studies, this newly developed evaluation model considers the change management efforts and the financial investments required for system deployment. The model proves the overall performance value through the implementation of electronic batch recording solutions and supports decision makers in finding the most effective solution. The development and effectiveness of this model is based on various surveys, expert interviews, a Delphi study, as well as a case study with a real-life pharmaceutical company. The outcome of her research can be easily applied to other industries as well.      Telematics - Support for Transport Jerzy Mikulski, 2014-09-30 This book constitutes the proceedings of the 14th International Conference on Transport Systems Telematics TST 2014 held in Katowice, Kraków and Ustroń, Poland, in October 2014. The 49 papers included in this volume were carefully reviewed and selected from 125 submissions. The papers provide an overview of solutions being developed in the fields of transport telematics and intelligent transport systems.
