State-Building in Kosovo Andrea Lorenzo Capussela, 2015-03-19 The history of Kosovo is a complicated one which typifies the darker side of modern Balkan history Milosevic's Serbia withdrew from Kosovo in 1999 and the province was handed over to a special UN body who governed until 2008 when the West allowed Kosovo to become independent The aim was to erect a stable and well governed democracy but the outcome was a fragile state which still threatens the stability of the Balkans and Europe's internal security How did this happen Here Andrea Lorenzo Capussela offers an inside look at the process of building democracy in Kosovo As head of the economics unit of Kosovo's international supervisor Capussela has had access to previously unknown sources and information regarding the roles of the EU and the US in the crisis This will be an essential reading for those studying the Kosovo crisis

[The Routledge Companion to Humanitarian Action](#) Roger Mac Ginty, Jenny H Peterson, 2015-03-24 The Companion on Humanitarian Action addresses the political ethical legal and practical issues which influence reactions to humanitarian crisis It does so by exploring the daily dilemmas faced by a range of actors including policy makers aid workers the private sector and the beneficiaries of aid and by challenging common perceptions regarding humanitarian crisis and the policies put in place to address these Through such explorations it provides practitioners and scholars with the knowledge needed to both understand and improve upon current forms of humanitarian action The Companion will be of use to those interested a range of humanitarian programmes ranging from emergency medical assistance military interventions managing refugee flows and the implementation of international humanitarian law As opposed to addressing specific programmes it will explore five themes seen as relevant to understanding and engaging in all modes of humanitarian action The first section explores varying interpretations of humanitarianism including critical historical and political economic explanations as well as more practice based explorations focused on notions needs assessments and evaluation Following this readers will be exposed to the latest debates on a range of humanitarian principles including neutrality and sovereignty before exploring the key issues faced by the main actors involved in humanitarian crisis from international NGOs to local community based organizations The final two sections address what are seen as key dilemmas in regards to humanitarian action and emerging trends in the humanitarian system including the increasing role of social media in responding to crises Whilst not a how to guide the Companion contains many practical insights for policy makers and aid workers whilst also offering analytical insights for students of humanitarian action Indeed throughout the book readers will come to the realization that understanding and improving humanitarian action simultaneously requires both active critical reflection and an acceptance of the urgency and timeliness of action that is required for humanitarian assistance to have an impact on vital human needs Exploring a sector that is far from homogenous

communications stabilization and developing a successful exit strategy These issues are all central to the broader debates about how to design effective peace operations in Africa and beyond AMISOM was remarkable in several respects it would become the African Union's AU largest peace operation by a considerable margin deploying over 22 000 soldiers it became the longest running mission under AU command and control outlasting the nearest contender by over seven years it also became the AU's most expensive operation at its peak costing approximately US 1 billion per year and sadly AMISOM became the AU's deadliest mission Although often referred to as a peacekeeping operation AMISOM's troops were given a range of daunting tasks that went well beyond the realm of peacekeeping including VIP protection war fighting counterinsurgency stabilization and state building as well as supporting electoral processes and facilitating humanitarian assistance

Intervention and State-Building in the Pacific Greg Fry, Tarcisius Tara Kabutaulaka, 2008-10-15

Intervention and State Building in the Pacific explores state building intervention in weak war torn or failing states through a critical examination of a new model that has recently emerged in relation to the Pacific arc of crisis Initiated by the Australian Government in 2003 this cooperative intervention doctrine built on declared principles of partnership and respect for sovereignty seems to offer a legitimate way to engage in state building intervention Drawing on a group of distinguished Pacific specialists this book mounts a critique of these claims showing how international legitimacy does not automatically translate into political legitimacy among those in the affected societies and how the attempt to legitimize the intervention internationally may actually work against such legitimacy in the recipient state

Slavic Thinkers Or the Creation of Politics Josette Baer, 2007 What is political culture Does political culture affect democratization and if so what method could make such analysis feasible Research on cultural aspects of the various exit strategies of recent and prospective EU members has focused on the cultural thesis that views religion as principal factor for

a successful democratization Baer's comparative and interdisciplinary study addresses the hitherto sparsely researched aspect of political culture with a detailed analysis of the political thought of six Slavic intellectuals who were crucially involved in nation and state building The analytical portrait of the region's intellectual history as a subfield of Eastern European history allows drawing new conclusions about democratization that can help to explain the different paths the states chose after 1989 Baer's study provides a political culture hypothesis and a method tailored to post communist transition and offers a new theoretical contribution to democratization studies Publisher's website
