First Shall Last Rethinking Antisemitism:

Desiring Machines Thomas Ryba, Sandor Goodhart, 2025-11-27 As artificial intelligence assumes increasing prominence in our lives a host of questions arise particularly if one holds a view of humans as inherently social or mimetic such as Ren Girard Does the potential for self awareness in artificial intelligence come with mimetic desire in the way Girard claims it does for human beings Thomas Ryba and Sandor Goodhart bring together a team of renowned scholars to theorize artificial intelligence from a Girardian perspective for the first time Chapters present cutting edge reflections on Girard s mimetic theory in connection with science humans fiction film philosophy and God shedding light on artificial intelligence and the consequences of the implementation of humanoid robots into daily life In Part I each argument is followed by a response spanning topics from the philosophic foundations of mimetic theory and cognitive science through to scapegoating mimesis and the human future Drawing on close interpretative readings of films including A I Artificial Intelligence Ex Machina and HER as well as literary productions philosophic essays and theological concepts it offers a novel approach to utilize the seminal ideas of Girard Setting out new challenges and insights this interdisciplinary volume is an essential starting point for students and scholars of Girard mimetic theory artificial intelligence robotics film philosophy of religion and ethics The First Shall Be The Last: Rethinking Antisemitism Adam Katz, Eric Gans, 2015-12-22 At a time when there is an evident socio economic political and cultural structural shift in the processes and practices associated with contemporary manifestations of antisemitism globally it is important to explore its origins and examine whether the circumstances of its genesis can shed light on its longevity and adaptability Few scholars are more qualified to undertake such a task than the authors of this volume who have done so much to develop and advance the discipline of generative anthropology In this study their groundbreaking hypothesis on the singular event that gave rise to human language and by extension human culture finds a fascinating parallel in the Jewish people s discovery invention of monotheism giving rise to historical resentments and hostility The volume will be of interest to scholars working in the field of anti discrimination and antisemitism as well as human rights scholars and cultural historians in general **Confronting Antisemitism from Perspectives of Philosophy and Social Sciences** Armin Lange, Kerstin Mayerhofer, Dina Porat, Lawrence H. Schiffman, 2021-11-08 The five volumes provide a compendium of the history of and discourse about antisemitism both as a unique cultural and religious category Antisemitic stereotypes function as religious symbols that express and transmit a belief system of Jew hatred which are stored in the cultural and religious memories of the Western and Muslim worlds This volume explores the phenomenon from the perspectives of Philosophy and Social Sciences **WE MUST RETHINK AND REINVENT THE AMERICAN DEMOCRACY, IN ORDER TO SAVE IT** Donald G Fisher, 2024-05-29 The American democracy will be under stress for decades to come If the American people do not take action to save it it will almost certainly cease to exist at some point in the future A nation s democracy is not held in place by the laws of physics It is an abstract concept that each person has in his or

her mind In our nation s history we have always had the problem of the people who are living happy lives declaring that the United States is a great democracy while the people living in slavery and later under segregation declaring just the opposite In my view the United States did not become a legitimate democracy until the civil rights victories of the 1960 s were achieved How can you say that my people were living in a democracy when most of them were not allowed to vote

Неуловимая реальность Роман Кацман,2020 A hundred years is the period long enough to talk about Russian Israeli literature as a historically consistent though quite an indeterminate community Not being a historical study Roman Katsman s new book subtly outlines one of the magnetic lines of this community the search for an answer to the main question of modernity what is reality as well as the search for the real which makes the core of the Jewish existence Today just like a hundred years ago the success of this search depends on how well Russian Israeli literature can overcome fears and temptations of the Russian melancholy and the Israeli marginality Fighting for its existence in unique conditions it chooses sophisticated forms of transforming its double cultural unbelonging into the paradoxical philosophical realism that can be perfectly comprehended only today with the benefits of postmodernism appropriated and left behind At the same time despite its peculiar nature Russian Israeli literature shares the fundamental trend of the world literature namely its transition to virtual web based augmented reality

and Unmusical Michael P. Steinberg, 2007 Modernity gave rise to a Jewish consciousness that has increasingly distanced itself from the sacred in favor of worldliness and secularity Judaism Musical and Unmusical traces the formulation of this secular Jewishness from its Enlightenment roots through the twentieth century to explore the infinite variations of modern Jewish experience in Central Europe and beyond Engaging the work of such figures as Sigmund Freud Walter Benjamin Hannah Arendt Charlotte Salomon Arnaldo Momigliano Leonard Bernstein and Daniel Libeskind Michael Steinberg shows how modern Jews advanced cosmopolitanism and multiplicity by helping to loosen whether by choice or by necessity the ties that bind any culture to accounts of its origins In the process Steinberg composes a mosaic of texts and events often distant from one another in time and place that speak to his theme of musicality As both a literal value and a metaphorical one musicality opens the possibility of a fusion of aesthetics and analysis a coupling analogous to European modernity's twin concerns of art and politics **Sociological Abstracts** , 1992
