E-discovery and Data Privacy Catrien W. Noorda, Stefan Hanloser, 2011-01-01 This book deals with the dilemma faced by multinational corporations when a United States court demands discovery of ESI that is protected in other countries In fine detail the authors cover the full spectrum of possible responses from evaluating the comparative costs of legal sanctions in a variety of major global jurisdictions to recognizing when to avoid litigation entirely The tone throughout is eminently practical specifying the precise nature and degree of risk involved and offering optimal solutions to all the conflicts likely to arise On the theoretical side the rationales of both the US e discovery model and data privacy laws focusing on the European data protection directive are clearly explained P 4 of cover

E-Discovery and Data Privacy Catrien Noorda, Stefan Hanloser, 2010-12-06 It is not unusual in corporate litigation for the outcome of a case to hinge on the discovery in court of electronically stored information ESI Yet in most jurisdictions notably among EU Member States the withholding of such information is required by privacy laws or even laws specifically blocking the transfer of data for discovery purposes Companies that ignore such laws may face severe sanctions In the United States however discovery of ESI is often compulsory and failure to comply can lead to contempt of court and losing the case This book deals with the dilemma faced by multinational corporations when a United States court demands discovery of ESI that is protected in other countries In fine detail the authors cover the full spectrum of possible responses from evaluating the comparative cost of legal sanctions in a variety of major global jurisdictions to recognizing when to avoid litigation entirely The tone throughout is eminently practical specifying the precise nature and degree of risk involved and offering optimal solutions to all the conflicts likely to arise On the theoretical side the rationales of both the US e discovery model and data privacy laws focusing on the European data protection directive are clearly explained Specific jurisdictions covered include Austria Belgium Bulgaria the Czech Republic Estonia Finland France Germany Greece Hungary Israel Italy Latvia Liechtenstein Lithuania Luxembourg Macau Malaysia the Netherlands Norway Poland Portugal Romania Serbia Singapore Slovakia Slovenia Spain Switzerland Taiwan and United Kingdom

Advanced Employment Law and Litigation, 2008 **Current Developments in Employment Law**, 2010 **Pennsylvania E-Discovery** Philip N.

Yannella, 2014-07-18 Today's legal teams are under more pressure than ever particularly with the exponential growth in data volume and information complexity Management of electronically stored information is becoming increasingly critical to the legal profession Pennsylvania eDiscovery written by Philip N Yannella of Ballard Spahr LLP is the seminal volume on this subject What electronic information is discoverable How do I counsel clients to preserve electronic content to avoid sanctions for spoliation How can eDiscovery be less costly and time consuming How do I manage the complexities of an eDiscovery request All your eDiscovery answers are provided in Pennsylvania eDiscovery by Mr Yannella the practice leader of his firm's eDiscovery and Data Management Group Mr Yannella manages eDiscovery issues in high profile litigation and counsels clients worldwide on data preservation retrieval and privacy matters He also has significant experience representing Fortune 500 companies on eDiscovery and data management issues in both the company litigation *The 3rd Annual National Institute on E-Discovery* American Bar Association, 2009 Environmental Litigation, 2010 Enforcement of U.S. Electronic Discovery Law Against Foreign Companies Kristen A. Knapp, 2014 Although the U S Supreme Court first considered the conflict between U S discovery rules and foreign non disclosure law in 1958 a clear standard regarding how to enforce U S law against foreign domiciled companies has yet to emerge As a result of the 2006 amendments to the U S Federal Rules of Civil Procedure concerning electronic discovery e discovery procedures more and more companies with global operations are finding themselves enmeshed in e discovery that requires a greater understanding of the issues and laws from a global perspective because it is challenging to navigate and manage e discovery when you have parent companies based overseas or U S based companies with foreign subsidiaries This paper looks at in light of the 2006 amendments and the lack of case law regarding the effect of the 2006 amendments whether the enforcement techniques as applied to paper discovery should be applied to e discovery and whether there is anything specific to the nature of e discovery that necessitates a change in the application of the law Specifically the paper addresses how the European data privacy regime may affect the application of paper discovery enforcement techniques to e discovery The paper suggests that it would be unwise for U S courts to afford the European Data Privacy regime significant deference Instead the European Data Privacy regime should be treated with skepticism similarly to how the U S courts have viewed blocking statutes

contained in foreign law In particular treating the EU Data Privacy regime with skepticism will help to prevent the creation of perverse incentives for companies to store their data abroad that hope to avoid legitimate discovery production requests under the Federal Rules of Civil Procedure by raising the transaction costs for such behavior **Symposium Issue** ,2008
