Special attention is given to studying its changing relationship and interaction with the surrounding societies in which it has existed. The intended readership will be those training for ministry in English-speaking churches, so the studyguide will concentrate on those aspects of this subject of most relevance to this group. This means there will be greater attention to developments in the West than in the East, especially in later centuries, and to topics such as the nature of ministry, the sacraments, places of worship, authority in the Church, and mission. These will be examined at each period of Church history. In each chapter, to provide reference points of comparison throughout the book, each chapter will also contain a specific case study presenting extracts of some key documents with notes, commentary, and questions for discussion to allow readers to develop skills in historical research. General discussion questions and reading lists will be provided at the end of each chapter. The final chapter will provide guidance for the study of the history of the student's own Church and community. *The Catholic Middle Ages* Phillip Campbell, 2016-08-04 In *The Catholic Middle Ages*, the second book in the Primary Document Catholic Study Course series, Phillip Campbell uses the primary source method to walk students through the history of the medieval
