Knowledge Management and Organizational Learning William R. King,2009-06-13 Knowledge management KM is a set of relatively new organizational activities that are aimed at improving knowledge knowledge related practices organizational behaviors and decisions and

organizational performance KM focuses on knowledge processes knowledge creation acquisition refinement storage transfer sharing and utilization These processes support organizational processes involving innovation individual learning collective learning and collaborative decision making The intermediate outcomes of KM are improved organizational behaviors decisions products services processes and relationships that enable the organization to improve its overall performance Knowledge Management and Organizational Learning presents some 20 papers organized into five sections covering basic concepts of knowledge management knowledge management issues knowledge management applications measurement and evaluation of knowledge management and organizational learning and organizational learning *Handbook of Strategic Alliances* Oded Shenkar, Jeffrey J. Reuer, 2006 Covers research on strategic alliances and serves to lay out a research agenda on collaborative strategy and alliance management This book covers the theoretical foundations that guide work on inter firm collaboration ranging from sociological perspectives to real options theory to diverse traditions within organizational economics **ECKM 2020 21st European Conference on Knowledge Management** Professor Alexeis Garcia-Perez, 2020-12-02 *The Philosopher's Stone for Sustainability* Yoshiki Shimomura, Koji Kimita, 2012-09-19 Industrial Product Service Systems IPS2 which is defined as an integrated industrial product and service offering that delivers value in use has expanded rapidly over the last decade IPS2 has allowed us to achieve both high added value and high productivity and has enriched our QOL by improving the performance of products and services We are now struggling with many awkward issues related to sustainability but IPS2 is expected to be the philosopher's stone for solving these issues Following the pattern of conferences held in Cranfield in 2009 Linköping in 2010 and Braunschweig in 2011 the fourth International CIRP Conference on Industrial Product Service Systems held on November 8-9 2012 in Tokyo will cover various aspects of IPS2 Topics planned for this year's conference reflect the latest IPS2 information in both the natural sciences and humanities and include case studies from various industries IPS2 is still a relatively new field so it is important to keep track of the entire context in order to promote more cross sectional cooperation between multimodal fields and disciplines The fourth International CIRP Conference on Industrial Product Service Systems will serve as a vital platform for such collaborations and the discussion of new scientific ideas **Frontiers of Entrepreneurship Research**, 2010 *Library & Information Science Abstracts*, 2008 **Knowledge Creation, Diffusion, and Use in Innovation Networks and Knowledge Clusters** Elias G. Carayannis, David Campbell, 2006 In the 21st century intangible resources such as knowledge and social capital have become as necessary to the modern economy as coal diamonds and oil were to the past This shift from product focused to service focused economies necessitates a drastic re thinking of the ways in which we support the mission and business of economic development on a global regional and national scale In order to effect and sustain a positive change innovation and knowledge networks need to be connected to every aspect of life from the private and domestic to the corporate and the global This book integrates a wide variety of perspectives and treatises on mutually adaptive and

complementary processes of knowledge generation diffusion and transfer within organizations and industry addressing both the what and how to questions of knowledge management in a conceptual as well as an applied manner It should be of strong interest to science and technology policy makers research and development managers business decision makers and students of innovation and knowledge dynamics alike

Operations, Strategy, and Technology Robert H. Hayes, 2005 Hayes is a founder of the Operations Strategy field and all four authors are on the Harvard Business School faculty In *Operations Strategy and Technology Pursuing the Competitive Edge* the long awaited follow up to the highly successful classic *Restoring Our Competitive Edge* Bob Hayes Gary Pisano Dave Upton and Steve Wheelwright take a fresh look at the foundations of corporate success This book addresses the basic principles that guide the development of a powerful operations organization and describes how a company's operating and technological resources can be applied to create a sustainable competitive advantage in today's new global and IT intensive economy Achieving a competitive advantage through superior operations is what the authors refer to as the operations edge

Organizational DYNAMICS , Learning and Innovation in Economic Development Linsu Kim, 1999 These essays identify the evolutionary processes and patterns of learning capability building and innovation in catch up countries They suggest that such economies have different patterns of learning from those of advanced countries Kim uses the example of Korea to examine various industries

The Dynamics of Clusters and Innovation Brigitte Preissl, Laura Solimene, 2003-08-26 Innovation is the motor of economic change Over the last fifteen years researches in innovation processes have emphasised the systemic features of innovation Whilst innovation system analysis traditionally takes a static institutional approach cluster analysis focuses on interaction and the dynamics of technology and innovation First the volume gives an overview of the different levels of analysis from which the innovation behaviour of firms has been observed in the past The book then presents a distinct cluster approach as a useful and innovative tool to analyse the configuration and dynamics of networks of actors involved in innovative processes This approach emphasises the possibilities of enhancing cluster benefits by introducing virtual links between cluster actors Empirical evidence is provided for the automotive components and the telecommunication industries By restricting the discussion to Germany and Italy the authors are able to explore the role that national innovation systems play as a framework in which clusters operate

Managing Knowledge Paul Quintas, Tim Ray, Stephen Little, 2002 This text offers a critical overview of underlying theory in this field as well as a range of relevant examples from a global perspective It places knowledge management in the context of an emerging global economy
