TURBOCHARGER - FORD 1800

As the new exhaust outlet is relocated to the forward end of the Ford 1800 tractor, the position of the turbocharger and associated components is revised as shown in Figure 11.

To improve torque at lower engine speeds, the turbocharger features a twin entry turbine, Figure 12. Dual inlet ports split the exhaust gases and smooth out periodic pulsing.

This new design improves turbocharger performance and efficiency.

The twin entry turbocharger is not interchangeable with the previous design.

The exhaust manifold has a revised mounting to accept the new turbocharger.
