Evolution Creationism And Other Modern Myths A Critical Inquiry:

Evolution, Creationism, and Other Modern Myths Vine Deloria, Jr., 2016-12-01 Using the tension between evolutionists and creationists in Kansas in the late 1990s as a focal point Deloria takes Western science and religion to task providing a critical assessment of the flaws and anomalies in each side's arguments

God is Red Vine Deloria, 2003 The seminal work on Native religious views asking questions about our species and our ultimate fate

Science and Christianity in Pulpit and Pew Ronald L. Numbers, 2007-09-10 Ronald Numbers is one of the best known scholars of the relationship between science and religion In this volume he collects seven of his published papers focusing on Christianity and science The essays address broad topics such as the popularization of

scientific ideas secularization and the development of the naturalistic worldview One essay considers the writings of Charles Hodge the most influential American Protestant theologian of the 19th century revealing for the first time the central role that science played in his theology Another deals with the demise of Bishop Ussher's young earth cosmology especially among evangelical Christians Taken together these accessible and authoritative essays form a perfect introduction to Christian attitudes towards science since the 17th century *Creationism Versus Evolution* Eric Braun, 2005 Where did humans come from and how do we teach our children about it The battle over this element of classroom curricula has been a particularly contentious debate Today a faction of creationism known as Intelligent Design has raised the stakes even further claiming to have scientific proof that life was created by an intelligent designer Creationism versus Evolution examines the debate as it has unfolded in recent years *Native Voices* Richard A. Grounds, George E. Tinker, David Eugene Wilkins, 2003 Native peoples of North America still face an uncertain future due to their unstable political legal and economic positions Views of their predicament continue to be dominated by non Indian writers In response a dozen Native American writers here reclaim their rightful role as influential voices in debates about Native communities These scholars examine crucial issues of politics law and religion in the context of ongoing Native American resistance to the dominant culture They particularly show how the writings of Vine Deloria Jr have shaped and challenged American Indian scholarship in these areas since 1960s They provide key insights into Deloria's thought while introducing some critical issues confronting Native nations Collectively these essays take up four important themes indigenous societies as the embodiment of cultures of resistance legal resistance to western oppression against indigenous nations contemporary Native religious practices and Native intellectual challenges to academia Essays address indigenous perspectives on topics usually treated by non Indians such as role of women in Indian society the importance of sacred sites to American Indian religious identity and relationship of native language to indigenous autonomy A closing essay by Deloria in vintage form reminds Native Americans of their responsibilities and obligations to one another and to past and future generations This book argues for renewed cultivation of a Native American Studies that is more Indian centered *American Indian Culture and Research Journal*, 2004 *Winds of Change*, 2003 **Jeff Herman's Guide to Book Publishers, Editors & Literary Agents** Jeff Herman, 2003 A guide to the names and specialties of American and Canadian publishers editors and literary agents includes information on the acquisition process and on choosing literary agents *American Indian Liberation* George E. Tinker, 2008 This thought provoking work describes the oppression suffered by American Indians since the arrival of European colonists who brought a different worldview across the ocean and attempted to convert the native population to the religion they brought with them The methodology language and understandings of the Christian beliefs of the colonists and of the majority society since the colonial period largely failed to Christianize the native population Different conceptual frameworks and different understandings of terms made and make Christian doctrine unappealing and at times incomprehensible to American Indians

In this book Tink Tinker focuses in particular on differing understandings of Jesus Christ and of the land and the centrality of both to the theology of sovereignty and the challenges communities of faith face particularly indigenous communities in a postcolonial world
