Multicultural Education as Social Activism Christine E. Sleeter, 1996-07-03 Connecting multicultural education with political issues of power and struggle this book explores what multicultural education means to white people given the unequal racial power relations in the U S and worldwide It examines connections between race gender and social class particularly as these connections play out for white women While taking a feminist perspective the author is also wary of the power white middle class women exercise in defining what counts as gender issues Throughout the book Sleeter argues that

multicultural education was born in political struggle and can never meaningfully be disconnected from politics Ultimately the quest for schooling for social justice is a political quest rather than a technical issue Critical Multicultural Education Christine E. Sleeter, 2024 This volume collects Christine Sleeter's core work focusing on critical multicultural education situating culture and identity within an analysis of power and racism Multicultural education arose in the context of the Civil Rights Movement and in its inception shared with that movement a focus on eradicating both interpersonal and systemic racism The problem this book takes up is that over time many people have come to understand and enact multicultural education in ways that evade grappling directly with racism This dilution has happened for several reasons including White teachers rearticulations of multicultural education as getting along or learning to be colorblind and neoliberal reforms that have reduced it to a celebration of cultural diversity while maintaining silence about racism This volume includes ten of Sleeter's articles that explicitly locate multicultural education within critical understandings of race racism and colonialism offering both theoretical and practical discussions of what that means A deeply researched contextualized and nuanced account of multicultural education H Richard Milner IV Vanderbilt University This beautiful and intersectional volume needs to be required reading in every school of education Robin DiAngelo coauthor of *Is Everyone Really Equal* This book is an important intervention on the side of racial justice in education Wayne Au editor *Rethinking Schools* **Music, Education, and Diversity** Patricia Shehan Campbell, 2018-01-19 Music is a powerful means for educating citizens in a multicultural society and meeting many challenges shared by teachers across all subjects and grade levels By celebrating heritage and promoting intercultural understandings music can break down barriers among various ethnic racial cultural and language groups within elementary and secondary schools This book provides important insights for educators in music the arts and other subjects on the role that music can play in the curriculum as a powerful bridge to cultural understanding The author documents key ideas and practices that have influenced current music education particularly through efforts of ethnomusicologists in collaboration with educators and examines some of the promises and pitfalls in shaping multicultural education through music The text highlights World Music Pedagogy as a gateway to studying other cultures as well as the importance of including local music and musicians in the classroom Book Features Chronicles the historical movements and contemporary issues that relate to music education ethnomusicology and cultural diversity Offers recommendations for the integration of music into specific classes as well as throughout school culture Examines performance composition and listening analysis of art folk traditional and popular as avenues for understanding local and global communities Documents music's potential to advance dimensions of multicultural education such as the knowledge construction process prejudice reduction and an equity pedagogy Indian Education for All John P.
