Ferdinand Magellan Sb-Ee ,1999-09-01 **Lewis & Clark Sb-Ee** Bergen,1999-09 Describes the expedition led by Meriwether Lewis and William Clark to explore the unknown western regions of America at the beginning of the nineteenth century *Ferdinand Magellan* Katharine Bailey,2006 An introduction to the life of sixteenth century Spanish explorer Ferdinand Magellan *The Age of Exploration* Britannica Educational Publishing,2013-06-01 The Age of Exploration which spanned roughly from 1400 to 1550 was the first time in history that European powers eyeing new trade routes to the East or seeking to establish empires began actively looking far past their own borders to gain a better understanding of the world and its many resources The individuals who set out on behalf of the countries they represented came from a variety of backgrounds and included master navigators such as Christopher Columbus and Ferdinand Magellan the latter of whom was the first to circle the globe as well as the often ruthless conquistadors of the New World such as Francisco Pizarro and Hernan Cortes The exciting and sometimes tragic lives and journeys of these and many others as well as the battles for empire that arose are chronicled in this engaging volume **Explore with Ferdinand Magellan** Marie Powell,2014-09-19 Portuguese explorer and navigator Ferdinand Magellan led an expedition to the Spice Islands that ended up circumnavigating the Earth This title guides readers through his major voyages explorations and discoveries Topics include what led Magellan to sail west on behalf of Spain life on board ship the first ever exploration of the Pacific Ocean the completion of the voyage after Magellan's death in battle and Magellan's legacy Ferdinand Magellan Betty Burnett,2003 A description of the life and voyage of the sixteenth century Portuguese sea captain who commanded the first expedition to sail around the world *Legendary Explorers* Charles River Charles River Editors,2017-12-20 Includes descriptions of the voyage from crew member Antonio Pigafetta's journal Includes maps and pictures of important people and places in Magellan's life Most versed in nautical charts he knew better than any other the true art of navigation of which it is certain proof that he by his genius and his intrepidity without anyone having given him the example how to attempt the circuit of the globe which he had almost completed The glory of Magellan will survive him Antonio Pigafetta A lot of ink has been spilled covering the lives of history's most influential figures but how much of the forest is lost for the trees The Age of Exploration and the explorers who set out on their history making expeditions left many legacies and profoundly influenced history around the world The voyages of men like Columbus and the conquests of men like Cortes escalated tensions between the European nations initiated imperialistic empires on a global scale helped birth the United States and ensured that the wars in the 20th century were truly world wars In Charles River Editors' *Legendary Explorers* series readers can get caught up to speed on the lives of the most important explorers of history in the time it takes to finish a commute while learning interesting facts long forgotten or never known Ferdinand Magellan was unquestionably one of the more remarkable figures of the Age of Exploration and given his fateful expedition he has the era's most unique legacy Today he is remembered as the

first man to circumnavigate the globe despite the fact he died thousands of miles away from Spain in the Philippines It is also commonly overlooked that among the famous and historic expeditions in the early 16th century Magellan's was by far the most dangerous unique and adventurous Nearly 240 men would set sail from Spain in August 1519 aboard 5 ships and 18 would return to Spain in September 1522 aboard 1 ship Given his legacy and the fact that he died half a world away from Spain the nature of his achievements has sometimes been misunderstood Though he personally didn't circumnavigate the globe Magellan was one of the most accomplished navigators of his time and during his expedition he crucially charted territories previously unexplored by Europeans including the Strait of Magellan at the southern tip of South America Perhaps the most important fact about Magellan though is that he succeeded precisely where Christopher Columbus before him had failed While Columbus has gone down in history as the discoverer of America for Europeans finding a new continent was never his true goal For the Europeans of the time the establishment of trade routes to Asia remained the most important commercial ambition of all and though he is not as notorious as Columbus or Cortes it was Magellan who established a westward route to the Spice Islands of the Indian Ocean In the early 16th century that was a more important accomplishment to Europeans than the discovery of a New World In economic terms the opening up of new trade routes with Asia was a more significant development than the conquest of the Americas and the development of the new American colonial economies is unimaginable without the expansion of commerce with the East

unquestionably one of the more remarkable figures of the Age of Exploration and given his fateful expedition he has the era's most unique legacy. Today he is remembered as the first man to circumnavigate the globe despite the fact he died thousands of miles away from Spain in the Philippines. It is also commonly overlooked that among the famous and historic expeditions in the early 16th century, Magellan's was by far the most dangerous, unique, and adventurous. Nearly 240 men would set sail from Spain in August 1519 aboard 5 ships, and 18 would return to Spain in September 1522 aboard 1 ship. Given his legacy and the fact that he died half a world away from Spain, the nature of his achievements has sometimes been misunderstood. Though he personally didn't circumnavigate the globe, Magellan was one of the most accomplished navigators of his time, and during his expedition he crucially charted territories previously unexplored by Europeans, including the Strait of Magellan at the southern tip of South America. Perhaps the most important fact about Magellan, though, is that he succeeded precisely where Christopher Columbus before him had failed. While Columbus has gone down in history as the discoverer of America for Europeans, finding a new continent was never his true goal. For the Europeans of the time, the establishment of trade routes to Asia remained the most important commercial ambition of all, and though he is not as notorious as Columbus or Cortes, it was Magellan who established a westward route to the Spice Islands of the Indian Ocean. In the early 16th century, that was a more important accomplishment to Europeans than the discovery of a New World. In economic terms, the opening up of new trade routes with Asia was a more significant development than the conquest of the Americas, and the development of the new American colonial economies is unimaginable without the expansion of commerce with the East.
