Set during Philadelphia's yellow fever outbreak, *Fever 1793* is a young adult, historical fiction novel written by Laurie R. King Anderson and first published in 2000. Anderson is a recipient of the Margaret A. Edwards Award for her contribution to young adult literature, and *Fever 1793* is an American Library Association Best Book for Young Adults and a New York Public Library Best Book for Teens.

Fever 1793 begins in August 1793, with 14-year-old Matilda Cook preparing for a wedding; she helps her mother, grandfather, and the cook Eliza run the clock-making business. Her house is a business Matilda's mother manages alone since her husband's death. Matilda butts heads with her demanding mother and dreams of becoming an independent young woman who travels and owns her own businesses. Matilda receives support from her Grandfather, a former Army captain in the Revolutionary War, and her city friend Fanny, a free Black woman who is widowed. Matilda also enjoys spending time with Nathaniel Denbury, a painter's apprentice, although Mother disapproves of his profession.

Matilda's normal day suddenly turns tragic. Fanny, Matilda's friend and the Cooks' servant, dies of a fever. Rumors of yellow fever spread through Philadelphia, and soon over a hundred people die. Anyone with the money to do so is leaving the city. When Matilda's mother contracts the fever, Matilda begs to stay with her, but her family insists she leave down to stay with some acquaintances and Grandfather in the countryside.

Grandfather and Matilda attempt a journey and his family, but when Grandfather appears ill and the guards of a neighboring town won't let him pass through, the farmer throws Matilda and Grandfather off the wagon without their belongings. Matilda must care for her sick grandfather and find food. She uses the military training Grandfather has given her throughout her life, framing the challenge as a battle and inspiring Grandfather to call her "Captain" (87). However, Matilda falls ill and collapses.

Matilda awakes to discover she has yellow fever and is in Rush Hill, a former mansion repurposed as a hospital for fever victims. While at first Rush Hill was dangerous, Stephen Girard—a wealthy French merchant—takes over the makeshift hospital and staffs it with French doctors. As Matilda's nurse Mrs. Flagg explains, the French physicians disagree with the bloodletting and purges advocated by American doctors. Grandfather visits Matilda, and

Teach Reading, Not Testing Liz Hollingworth, Hilleary M. Drake, 2012 Teaching IS rocket science and you are the pilot. Teach Reading, Not Testing reinforces what teachers already know: test preparation worksheets and drill-and-kill activities do not make children into lifelong readers. The authors' conscientious approach to reading instruction combines an insider perspective on the development of high-stakes tests with classroom experience in achieving successful reading outcomes at the elementary and secondary levels. Their research-based methodology, building on teachers' expertise about best practice, is based on five key components: Aligning instruction to the state or national core standards; Using formative assessment; Connecting units to real-world contexts; Motivating students effectively; Holding on to best practice in literacy instruction. Included are end-of-chapter quizzes and real-life scenarios, plus a full chapter on teaching literacy with special populations. Readers will find helpful solutions for teaching children to love reading in the midst of the accountability movement and an approach to test preparation that doesn't require teachers to sacrifice everything they already know about teaching kids to read.
