Fgm Pictures Before And After:

Female Genital Mutilation Charlotte Proudman, 2022-02-03 Female genital mutilation FGM has garnered significant media political and legal attention in the UK Despite criminalising the practice in 1985 FGM continues undetected and often underground This monograph provides a unique insight into survivor s attitudes towards FGM as well as the criminalisation of a culturally embedded practice Some of the narratives might be deeply uncomfortable as women sympathise and even uphold the practice whilst others viscerally describe the trauma and pain that they endured Digging deeper into efforts to eliminate FGM professionals at the coalface of the end FGM movement provide their views on whether the practice can ever be eradicated This volume explores the key themes that emerged from the well publicised criminal trials in the UK and the barriers that prevent the law from working effectively One of the obstacles that are examined further is the legal double standard in criminalising FGM whilst permitting female genital cosmetic surgery which incites hostility and anger amongst FGM performing communities Whilst ending FGM is imperative this enlightening work reflects on the unintended consequences that stem from punitive efforts to criminalise a practice performed by often Black migrant communities Women describe their experiences of racism and Islamophobia in a context of police surveillance and hyperbolic media narratives In an effort of encouraging the abandonment of FGM this publication highlights the need for the law to be accompanied by education initiatives at a grass root level *Female Genital Mutilation/Cutting in Children and Adolescents*

Jasmine Abdulcadir, Noémie Sachs Guedj, Michal Yaron, 2022-05-03 This open access illustrated guide focuses on Female Genital Mutilation Cutting FGM C in children and adolescents FGM C comprises all procedures that involve partial or total removal of the external female genitalia or injury to the female genital organs for nonmedical reasons It is mainly carried out during childhood before the age of 15 The signs of FGM C can be subtle and the examiner must be trained with a wide range of normal genitalia both before and after puberty FGM C types and subtypes complications and differential diagnosis This volume is a reference containing iconographic material of both pre and post pubertal genitals with and without genital cutting This book will guide health care professionals in making the correct diagnosis outline the clinical management enhance patient provider communication and will enable accurate recording and reporting to governments where required

Women's International Network News Women's International Network, 2001 *Female Genital Mutilation around The World: Ngianga-Bakwin Kandala, Paul Nzinga Komba, 2018-07-09* This book uses global household data to examine the prevalence trends and geographic variation of female genital mutilation FGM around the world It also addresses the underlying legal and policy aspects as well as explores the medical consequences both immediate and long term for those undergoing the practice The book analyses the position of victims of this gender based violence both from the medical and legal perspective and adopts a largely practical approach to the study of the practices offering a fresh thinking into one of the challenges in global health and the law In addition it offers some insights into how health professionals can approach this

category of victims and how legal practitioners can obtain a good legal result for their clients before domestic and international forums The book addresses fundamental issues such as state liability and defences in enforcement proceedings for actions or omission of state or non state actors and due diligence standard in international human rights law the main gateways available for obtaining relief for the victims of FGM This book goes beyond the traditional debate between zero tolerance and those who wish to see the practice medicalised and tolerated and favours an advocacy programme standing firmly in favour of the right of FGM victims This book offers a unique perspective likely to assist victims and their representatives to secure a remedy against perpetrators and the state As such this book will be of interest to medical professionals national and international lawyers academics and policymakers in the field of public health

Synthesis of Functionally Graded Materials Via Electrophoretic Deposition and Sintering Xuan Wang, 2006 In this research both the experiments and the modeling aspects of the net shape fabrication of Functionally Graded Materials FGM by Electrophoretic Deposition EPD and consecutive sintering have been investigated In order to obtain FGMs with desired final shape and properties the issues regarding the shape evolution during sintering the optimization of initial properties and composition profiles and the fabrication of green components by EPD have been analyzed In order to fabricate FGMs by the proposed technological sequence EPD with the following sintering the initial shape has to be optimized prior to sintering In this research the formulations to simulate sintering of an FGM were developed based on the continuum theory of sintering A finite element sintering modeling subroutine has been created and linked to the commercial finite element package ABAQUS The shape changes of FGM disks during sintering were simulated In order to obtain the desired final shape after sintering an inverse modeling methodology was developed to optimize the initial shape In order to fabricate the optimized initial shape of a green FGM specimen determined by the inverse continuum modeling of sintering EPD of a number of FGMs was investigated The FGM green specimens made of Al_2O_3 and ZrO_2 with the initial shape predicted by the inverse modeling were deposited using self designed equipments The acetone based suspension with n butylamine as a particle charging additive was used The comparison of the shape between the sintered and the green FGM indicated that the developed experimental theoretical methodology provided a reliable solution for near net shaping of complex 3 D FGM components Other applications of EPD such as in electronic packaging materials and zeolites were also investigated In order to fabricate functionally graded materials based on aligned porous structures unidirectional freezing followed by freeze drying and sintering has been investigated The aligned porous preforms were sintered and then impregnated by brushing gold After annealing at 600 C the gold wires which have the diameters ranging from several hundreds of nanometers to several micrometers have been found in the ceramic preforms
