setting up of a positive legal framework for inter Korean economic cooperation beginning to be regulated by international law This research provides two ultimate outcomes One is to resolve the legal problems for transnational economic cooperation relating to North and South Korea the other is to develop a juridical model of south north cooperation as a new world economic framework for the 21st century Three interrelated areas are involved in this work The first part describes the external environmental factors regarding inter Korean economic cooperation from an international legal perspective The second part deals with the legal framework of inter Korean economic cooperation examining concrete issues arising from practical economic exchanges and cooperation between the two Koreas The last part discusses the legal foundations for inter Korean economic integration beyond economic cooperation This book clarifies the significance of the legal environment as an indispensable servant for the parts of a divided country to recover their relationship offering both a normative and practical framework
