Er Is Meer Waarheid En Leugen Bij Paranormale Verschijnselen:

Legitimacy of Unbelief Gerd H. Hövelmann, Hans Michels, 2017 Dutch journalist Piet Hein Hoebens 1948 1984 held a unique position in the controversies between proponents and skeptics of parapsychology and related fields While he described himself as a card carrying skeptic with strong ecumenical leanings even many of his nominal opponents appreciated his work and his penetrating open minded criticism Hoebens constructive influence on the culture of responsible scientific exchange is felt to this day The editors have collected and mostly translated more than 40 of Hoebens most significant writings about half of which were never published in English before The editors also added editorial introductions to all chapters to elucidate their original contexts and their lasting relevance Therefore the book is more than a commemoration of an important author it provides valuable insights into the history of parapsychology and its skeptical reflections Back cover
