Catapano and best selling philosopher Simon Critchley curate a fascinating culture of debate and deliberation that would have otherwise gone undiscovered From questions of gun control and drone warfare to the morals of vegetarianism and marriage this book emancipates ethics from the province of ivory tower classrooms to become a centerpiece of discussions for years to come **Ethics** Gordon Daniel Marino,2010 *100 Conversations You Need to Have (Trilogy)* Perry Giuseppe Rizopoulos,2019-10-01 The notebooks included in the three volume set 100 Conversations You Need to Have contain A Philosophy Guide A Stoic Philosophy Guide and A Chinese Philosophy Guide Each notebook offers an accessible and thought provoking collection of life s big questions and corresponding answers from some of history s greatest philosophers Readers are provided with the opportunity to answer each question turn the page and receive a short piece of advice from thinkers on topics that include Happiness Friendship Discipline Patience The meaning of life and death And other essential topics The list of philosophers that are featured in each notebook is very multicultural It includes both men and women and spans across time including among others Aristotle Seneca Simone de Beauvoir Lao Tzu Dr Martin Luther King Jr Alfarabi Jean Paul Sartre and Pema Chodron These notebooks duplicate the Socratic dialogue method and embody the idea of philosophy being a pathway to a more fulfilling life by creating 100 meaningful dialogues between the reader and a diverse array of interlocutors who will guide them on their journey to crafting a good life *Suffering and Bioethics* Ronald Michael Green,Nathan J. Palpant,2014 Before curing was a possibility medicine was devoted to the relief of suffering Attention to the relief of suffering often takes a back seat in modern biomedicine This book seeks to place suffering at the center of biomedical attention examining suffering in its biological psychological clinical religious and ethical dimensions **Ethics and Biopower in Neuromarketing** Joshua Penrod,2022-10-30 This book explores the ethical and policy implications of the use of neuroscience in marketing Addressing emerging areas of neuromarketing and consumer neuroscience this book offers a fresh perspective on establishing a framework for codes of conduct for marketing practices using neuroscientific methods The use of neuroscience particularly in commercial and marketing contexts has been fraught with controversy and ethical concerns Technological advances have enhanced the ability to not only analyze but also predict or even control human behavior Using the work of Foucault on biopower the author discusses the moral dimensions of data collection and observation of consumer behavior in neuromarketing as well as policy implications After discussing the strengths and weaknesses of various ethical frameworks the author proposes fixes to current ethical and conduct codes for a more seamless approach for governance This book advances the scholarship on marketing ethics and appeals to researchers of consumer psychology business ethics and public policy **The Oxford Handbook of Mystical Theology** Edward Howells,Mark A. McIntosh,2020-02-25 The Oxford Handbook of Mystical Theology provides a guide to the mystical element of Christianity as a theological phenomenon It differs not only from psychological and anthropological studies of mysticism but from other theological studies such as more practical or pastorally oriented works that examine the patterns of spiritual

progress and offer counsel for deeper understanding and spiritual development It also differs from more explicitly historical studies tracing the theological and philosophical contexts and ideas of various key figures and schools as well as from literary studies of the linguistic tropes and expressive forms in mystical texts None of these perspectives is absent but the method here is more deliberately theological working from within the fundamental interests of Christian mystical writers to the articulation of those interests in distinctively theological forms in order finally to permit a critical theological engagement with them for today Divided into four parts the first section introduces the approach to mystical theology and offers a historical overview Part two attends to the concrete context of sources and practices of mystical theology Part three moves to the fundamental conceptualities of mystical thought The final section ends with the central contributions of mystical teaching to theology and metaphysics Students and scholars with a variety of interests will find different pathways through the Handbook

Tolerance and the Ethical Life Andrew Fiala, 2005-05-12 In a fresh and exciting way this new book shows how tolerance connects with the practice of philosophy Andrew Fiala examines the virtue of tolerance as it appears in several historical contexts Socratic philosophy Stoic philosophy Pragmatism and Existentialism The lesson derived is that tolerance is a virtue for what Fiala calls tragic communities Such communities are developed when we come together across our differences but they lack the robust sense of connection that we often seek with others the complete sort of happiness that is offered by a more utopian ideal of community But rather than viewing this conclusion as a failure Fiala maintains that tragic communities are the best communities possible for human beings who are aware of their own individuality and finitude Indeed they are typical of the sorts of communities created by philosophers engaged in dialogue with others *Tolerance and the Ethical Life* will strongly appeal to specialists and upper level students in Ethics and Political Philosophy both for its unique historical exploration of tolerance and its application of those results to present day moral theory

Nonviolent Perspectives Andrew Fitz-Gibbon, 2025-02-04 This book is a compilation of essays addressing the central issue of humanity interpersonal violence and more importantly nonviolence as its antidote The essays trace the author's journey from early pacifist convictions influenced by personal experiences with violence to a nuanced understanding of nonviolence rooted in ethics love spirituality and critical theory Spanning over two decades the writings explore various dimensions of nonviolence from philosophical arguments and historical analysis to practical applications in parenting political resistance and care ethics The book brings together previously published works that have been instrumental in shaping the author's thinking making them accessible for scholars students and anyone interested in nonviolence With reflections on the works of Murdoch MacIntyre Gandhi and others it offers a comprehensive examination of nonviolence as both a personal practice and a social imperative
