Ethnicity and the Colonial State Alexander Keese, 2015-11-30 Ethnicity and the Colonial State compares the choices of community leaders in three different West African groups Wolof Temne and Ewe with regard to selling their identifications to the colonial rulers The book thereby addresses ethnicity as a factor in global history *Ethnicity and the Colonial State* Alexander Keese, 2016 *Boundaries, Communities and State-Making in West Africa* Paul Nugent, 2019-06-06 By examining three centuries of history this book shows how vital border regions have been in shaping states and social contracts

Untapped Power Carla Koppell, 2022 Untapped Power provides extensive insight into why and how to advance diversity equity and inclusion when promoting development and addressing fragility and violent conflict Urgent challenges relating to diversity and inclusion are universal The global MeToo and BlackLivesMatter movements as well as the push for LGBTQ rights are all emblematic of a growing interest in and focus on how to better embrace and capitalize on diversity Yet these social movements exist alongside renewed efforts to constrain minority rights and stem immigration around the world In Untapped Power Carla Koppell has assembled a leading group of scholars policy makers researchers and activists to provide a comprehensive overview for understanding and navigating these countervailing forces so that we can build a more peaceful and inclusive world This book synthesizes theory research and analysis to show why an enduring global commitment to diversity and inclusion is essential and how to advance that agenda in practical terms It considers major scholarly theories and analytical frameworks underlying the case for a focus on diversity and inclusion analyzes diversity trends and movements for inclusion outlines specific strategies and approaches for promoting inclusion throughout peacebuilding and development processes and discusses priorities to advance the agenda through research advocacy financial investments and programming A guide to one of the most pressing issues in world politics this book will be essential for anyone working in the fields of global development conflict resolution or peace building *Teraanga Republic* Emily Jenan Riley, 2025-04-01 In Teraanga Republic Emily Jenan Riley unveils the importance of women's patronage politics in a Muslim majority Senegal expressed through teraanga a pivotal concept in the Wolof language referencing hospitality generosity and honor Riley challenges perceptions of governance gender and politics authority and religion on a global scale revealing the interconnectedness of republican Indigenous and Islamic ways of enacting politics Teraanga Republic delves into how the women who fought for equal political representation have transformed their private expressions of teraanga and piety into public governance strategies This rich ethnography provides an intimate look at the lives and careers of several prominent Senegalese women politicians including a former prime minister a justice minister and parliamentarians who make up one of the highest numbers of women in elected politics in the world These women politicians derive their authority in state politics by seamlessly blending public political gestures with private acts of belonging and reciprocity challenging the borders between state and private forms of governance and wealth distribution In turn their female patrons benefit socially and economically

by creating solidarity groups microenterprises and associations with women political leaders Bringing readers into the lived spaces of Senegalese politics Teraanga Republic demonstrates that with the emergence of a new elite class of women politicians also comes new considerations for what women envision for themselves and their communities **Identity and Identification in India** Laura Dudley Jenkins,2003-09-02 Can a state empower its citizens by classifying them Or do reservation policies reinforce the very categories they are meant to eradicate Indian reservation policies on government jobs legislative seats and university admissions for disadvantaged groups like affirmative action policies elsewhere are based on the premise that recognizing group distinctions in society is necessary to subvert these distinctions Yet the official identification of eligible groups has unintended side effects on identity politics Bridging theories which emphasize the fluidity of identities and those which highlight the utility of group based mobilizations and policies this book exposes didactic enforcement of categorizations while recognizing the social and political gains facilitated by group based strategies

Architecture and Urban Form in Kuala Lumpur Yat Ming Loo,2016-04-08 Kuala Lumpur the capital city of Malaysia is a former colony of the British Empire which today prides itself in being a multicultural society par excellence However the Islamisation of the urban landscape which is at the core of Malaysia s decolonisation projects has marginalised the Chinese urban spaces which were once at the heart of Kuala Lumpur Engaging with complex colonial and postcolonial aspects of the city from the British colonial era in the 1880s to the modernisation period in the 1990s this book demonstrates how Kuala Lumpur s urban landscape is overwritten by a racial agenda through the promotion of Malaysian Architecture including the world famous mega projects of the Petronas Twin Towers and the new administrative capital of Putrajaya Drawing on a wide range of Chinese community archives interviews and resources the book illustrates how Kuala Lumpur s Chinese spaces have been subjugated This includes original case studies showing how the Chinese re appropriated the Kuala Lumpur old city centre of Chinatown and Chinese cemeteries as a way of contesting state s hegemonic national identity and ideology This book is arguably the first academic book to examine the relationship of Malaysia s large Chinese minority with the politics of architecture and urbanism in Kuala Lumpur It is also one of the few academic books to situate the Chinese diaspora spaces at the centre of the construction of city and nation By including the spatial contestation of those from the margins and their resistance against the state ideology this book proposes a recuperative urban and architectural history seeking to revalidate the marginalised spaces of minority community and re script them into the narrative of the postcolonial nation state

Exploring Ethnic Diversity in Burma Mikael Gravers, 2007 While the image of modern Myanmar Burma tends to be couched in human rights terms and especially of a heroic Aung San Suu Kyi opposing an oppressive military regime in reality there are several conflicts with ethnic and religious dimensions as well as political and ideological differences between the opposition and the ruling military regime This is not surprising in a country where 30% of the population and much of the land area are non Burman and where contradictory tendencies towards regional separatism versus unitary rule have divided the people since before independence In what is probably the most comprehensive study of Burma's ethnic minorities to date this volume discusses the historical formation of ethnic identity and its complexities in relation to British colonial rule as well as to the modern state the present situation of military rule and its policy of Myanmarification Changes of identity in exile and due to religious conversion are also analysed and discussed Finally the book deals with relevant and recent anthropological and sociological theoretical discussions on the ethnic identity boundaries and space of all the main ethnic groups in Burma It probes into the complexity and diversity of ethnicity in Burma and it provides more details and up to date information than previously collected in one volume
