Greene,2017-07-28 Human Behavior Theory and Social Work Practice remains a foundation work for those interested in the practice and teaching of social work Roberta Greene covers theoretical areas and individual theorists including classical psychoanalytic thought Eriksonian theory Carl Rogers cognitive theory systems theory ecological perspectives social construction feminism and genetics She discusses the historical context its philosophical roots and major assumptions of each theory The general theme which distinguishes this volume is that the person in environment perspective has been a central influence in the formation of the profession s knowledge base as well as its approach to practice Greene provides perspective on how individuals and social systems interact This book examines how social workers can use theory to shape social work practice by increasing his or her understanding of and potential for enhancing human well being Greene covers the relationship between human behavior theory and professional social work practice She also explores the challenges and limitations of each theory and addresses the following issues how the theory serves as a framework for social work practice how the theory lends itself to an understanding of individual family group community or organizational behavior what the implications are of the theory for social work interventions or practice strategies and what role it proposes for the social worker as a change agent Throughout the profession s history social workers have turned to a number of theoretical approaches for the organizing concepts needed to define their practice base The aims of social work to improve societal conditions and to enhance social functioning of and between individuals families and groups are put into action across all fields of practice and realized through a variety of methods in a range of settings This third edition completely revised represents a fundamental contribution to the field and

like its predecessors will be widely used as a basic text

### **Human Behavior Theory and Social Work Practice with**

**Marginalized Oppressed Populations** Roberta R. Greene, Michael Wright, Melvin Herring, Nicole Dubus, Taunya Wright, 2019-04-29 Human Behavior Theory and Social Work Practice with Marginalized Oppressed Populations addresses what social workers can do to combat the increasingly complex social concerns that face the profession and explores how to incorporate the celebration of diversity and the protection of human rights into social work curricula and the helping process. The authors combine human behavior theories with a narrative postmodern practice methodology that deals with both the client's or constituencies presenting problem and equity issues and as a result the book is both theoretical and applied. Two major integrating themes throughout are at the forefront of the book: the celebration of diversity and the equality of human rights. The goal is to strengthen diversity and human rights components of the social work curriculum and to provide more practice guidelines for cross cultural practice. *Brooks/Cole Empowerment Series: Direct Social Work Practice* Dean H.

Hepworth, Ronald H. Rooney, Glenda Dewberry Rooney, Kim Strom-Gottfried, 2012-01-01 Considered the classic source by means of the authors' proven learning experiences from the field as well as its excellent balance of theory and application, **DIRECT SOCIAL WORK PRACTICE: THEORY AND SKILLS** prepares social work students for effective practice. Authoritative, well organized, and soundly written with an appropriate level of rigor, this thorough introduction to practice grounds students in theory while connecting them through vivid examples and vignettes to real world applications with clients. Many case examples are drawn from social work practitioners as well as the authors' own practice situations. The book is divided into four parts. Part One provides the foundational values and knowledge base material. Part Two is devoted to the beginning phase of the helping process. Part Three addresses the middle phase goal attainment strategies, discussing four intervention approaches. Part Four clarifies the termination phase of direct practice. Furthermore, as part of the Brooks/Cole Empowerment Series, the ninth edition is completely up to date and thoroughly integrates the core competencies and recommended practice behaviors outlined in the 2008 Educational Policy and Accreditation Standards (EPAS) set by the Council on Social Work Education (CSWE). Video demonstrations are available on the optional CourseMate website and ensure student learning experiences are as close to real life as possible.
