Israeli Discourse and the West Bank Elie Friedman, Dalia Gavriely-Nuri, 2017-10-19 How can irregular political situations which impact the lives of millions become normalized Specifically within the context of the Israeli Palestinian conflict how can 50 years of Israeli control over the Occupied Territories become accepted within Israeli society as a normal possibly even banal phenomenon Conversely how can such a situation be estranged from daily reality denied any relation to who we are This volume explores these questions through the lens of two central discourses that dominate the Israeli debate regarding the future of the Occupied Territories 1 Occupation Normalization Discourse which portrays Israeli control of the territories as a normal part of life 2

Occupation Estrangement Discourse which portrays this situation as distant from Israeli reality In addressing these discourses the authors develop a new methodological tool Dialectic Discourse Analysis which examines discourse as a process of perpetual positing and synthesis of oppositions through the discursive construction differentiation and mediation of self and other Through this approach the authors illustrate that these discourses are dialectically constituted in opposition to one another feeding off one another each enabling the other to exist This dynamic has resulted in a fixed discourse preventing any progress towards a synthesis of oppositions **Discourse and Mental Health** Juan Eduardo

Bonnin,2018-07-06 This book is the result of years of fieldwork at a public hospital located in an immigrant neighborhood in Buenos Aires Argentina It focuses on the relationships between diversity and inequality in access to mental healthcare through the discourse practices tactics and strategies deployed by patients with widely varying cultural linguistic and social backgrounds As an action research process it helped change communicative practices at the Hospital s outpatient mental healthcare service The book focuses on the entire process and its outcomes arguing in favor of a critical situated perspective on discourse analysis theoretically and practically oriented to social change It also proposes a different approach to doctor patient communication usually conducted from an ethnocentric perspective which does not take into account cultural social and economic diversity It reviews many topics that are somehow classical in doctor patient communication analysis but from a different point of view issues such as the sequential organization of primary care encounters diagnostic formulations asymmetry and accommodation etc are now examined from a locally grounded ethnographic perspective This change is not only theoretical but also political as it helps understand patient practices of resistance identity making and solidarity in contexts of inequality Language, Vernacular Discourse and Nationalisms Finex Ndhlovu,2018-03-15 This book examines

the linguistic and discursive elements of social and economic policies and national political leader statements to read new meanings into debates on border protection national sovereignty immigration economic indigenisation land reform and black economic empowerment It adds a fresh angle to the debate on nationalisms and transnationalism by pushing forward a more applied agenda to establish a clear and empirically based illustration of the contradictions in current policy frameworks around the world and the debates they invite The author s novel vernacular discourse approach contributes new points of method and interpretation that will advance scholarly conversations on nationalisms transnationalism and other forms of identity imaginings in a transient world **Political Discourse as Dialogue** Adriana Bolívar,2017-10-16 We are witnessing the collapse of democracies in many parts of the world and a general tendency to the resurgence of right wing and left wing populisms led by authoritarian leaders This book centres on the political dialogue in one of these democracies The focus is on Venezuela the rich Latin American oil producing country and its transformation from a stable democracy to a very unstable and controversial revolution in which the dialogue has been occupied by only one party for 18 years The central characters of the book are Hugo Ch vez who remained in power for 14 years as the main speaker and controller and the people who either

followed or opposed him in Venezuela and other countries Contrary to critical analyses which are mainly based on social representations that conceive dialogue as implicit or normative this book proposes a dialogue centred approach which articulates linguistics conversation analysis socio pragmatics and political science from a critical perspective and offers the theoretical foundations and procedures for analysing micro dialogues between specific persons and the macro social dialogue which unveils the processes of domination and resistance to power The book will be useful for scholars and students of linguistics media communication studies and political science wishing to learn more about dialogue in political interaction

Reference to the Third Level EFL Students Fadhel Mohsen Mohammed Mohammed,2019-04-01 Master s Thesis from the year 2017 in the subject Speech Science Linguistics grade Excellent course Writing language English abstract Writing is considered as a difficult process even in the first language L1 It is even more complicated to write in a foreign language FL Writing in a FL often presents the greatest challenge to the students at all stages of their learning particularly essay writing students write essays without serious grammatical errors or misspellings however their essays are still disconnected and

incoherent This illogicality is mainly caused by the errors at the discourse level EFL third level English students at Faculty of Education Radfan often face many problems when they write essays in English Thus this study aims at investigating the students discourse competence in essay writing This study also aims at exploring the causes that make the students commit discourse errors and to what extent the students incompetency affects their writing negatively To find out the reasons that might lead to the problems under investigation two instruments were employed to collect data the first instrument was the teachers questionnaire which was responded to by five teachers who teach writing and composition in the Department of English at Faculty of Education Radfan The second one was the students writing task through which twenty five students were required to write an argumentative essay The analyses and interpretations of the result obtained by the two instruments can be summed up as follows The teachers supplied the researcher with valuable information that made the students commit discourse errors when writing essays Besides they emphasized on the importance of drawing the students attention to the grammatical and lexical cohesive devices to help them write proficiently Moreover they suggested some methods and strategies to be taken during teaching writing to overcome the students problems The results obtained through the analyses of the students writing task showed that the students errors might be attributed to the inappropriate use of grammatical and lexical cohesive devices such as the overuse of some devices and the absence of the others however the overuse was not appropriate It was also noticed that the students managed to use some cohesive devices of each type but they showed their ignorance of the others as in the case of substitution and ellipsis which were barely used however that use was wrong On the basis of the findings the researcher proposed some solutions and suggestions that might help to overcome the problem

Current Discourse on Education in Developing Nations B. Robert Tabachnick, Robert Lewis Koehl, Michael Oládèjo Afoláyan, Didacus Jules, Dallas Browne, 2006 Comparative studies receive relatively little attention in U S education Comparative work done by people who are either international scholars or have spent extensive and intensive periods of time in international contexts rarely shows up on course syllabi or reading lists in most U S education courses However this volume is comprised of scholars at various phases of their careers early mid and late who have deep investments in issues of international and global education U S students do not know very much about the countries of Africa because these countries cannot be understood outside of the history and foreign policies that implicate the United States The same thing might be said of Latin America the Caribbean and increasingly Asia The only way that broader and more complex perspectives of the post colonial world can emerge are in the presence of post colonial voices Globalisation for better or worse is a part of our post modern postcolonial condition Unless we do systematic study of the way global forces impact material realities and our symbol systems we cannot make sense of our world and our place in it The responsibility for the study of the global
