National Bibliography Arthur James Wells, 2001

Navigating English Grammar Anne Lobeck, Kristin Denham, 2024-12-09

Enables students to understand their assumptions and beliefs about the language they use every day In *Navigating English Grammar* Anne Lobeck and Kristin Denham offer an engaging introduction to the linguistic study of the structure of English Teaching basic grammatical analysis through inquiry rather than memorization this popular textbook encourages students to use their intuitive knowledge of language to make their own discoveries about the grammatical categories add principles of the grammar of English The book strikes a balance between basic descriptive grammar and syntactic theory introducing students not only to the structure of English but also in some cases to why English has the structure it does Along the way

students discover how English has changed over time and how it varies from speech community to speech community. Student friendly chapters contain numerous examples drawn from different varieties of American English which illustrate how English grammar is a dynamic system, perceptions of one variety as better or more correct than another, and notions of standard and non standard English are socially constructed rather than based on linguistic fact. This edition is fully updated with new examples, new text excerpts from a diverse range of written genres and authors, and completely revised chapters and exercises. The book also includes an entirely new final capstone chapter designed to encourage students to apply what they have learned with more challenging practice exercises.

Navigating English Grammar: A Guide to Analyzing Real Language Second Edition is an excellent textbook for undergraduate courses in English grammar, English linguistics, and language education. [Books in Print Supplement](#), 2002. [Book Review Index](#), 2003. Every 3rd issue is a quarterly cumulation. [The Cumulative Book Index](#), 1996. A world list of books in the English language. **Linguistics and Language Behavior Abstracts**, 2003.
