Fractured Identities Changing Patterns Of Inequality:

Fractured Identities Harriet Bradley,2005 **Understanding Inequalities** Lucinda Platt,2017-04-21 Bringing together the latest empirical evidence with a discussion of sociological debates surrounding inequality this book explores a broad range of inequalities in people s lives As well as treating the core sociological topics of class ethnicity and gender it examines how inequalities are experienced across a variety of settings including education health geography and housing income and wealth and how they cumulate across the life course Richly illustrated with graphs and figures showing the extent of inequalities and the differences between social groups the book demonstrates how people s lives are structured by inequalities across multiple dimensions of their lives Throughout the text pays attention to how we know what we know about inequality what is measured and how what is left out of the picture and what implications this has for our understanding of specific inequalities Importantly the book also highlights the intersections between different sources or forms of inequality and the ways that bringing an intersectional lens to bear on topics can highlight and challenge the assumptions about how they operate Designed for second year undergraduates and above this book provides an engaging overview of social stratification and challenges readers to think about how inequalities are embedded across society *Success in Sociology: AS Student Book AQA* Peter Covington,2008-04 Sociology teachers exercise immense teaching and pedagogical skills to entertain and motivate the generation of post 16 sociology students This title seeks to develop a teaching and learning package to support teachers **Identity and Agency in England, 1500-1800** J. Barry,H. French,2004-11-23 This collection of essays is arranged around the central issue raised by a raft of new empirical research the relationship between social identity or the vision of the self and the ways in which this can explain historical agency If identities in early modern society were multiple complex and dependent on context rather than homogenous consistent or easily determined then it is difficult to make simple causal links to behaviour This collection aims to make innovative new research on the structures of English society available to the wider scholarly audience The essays use a number of detailed contextual case studies to explore the twin themes of the nature of identities in early modern society and their role in influencing historical agency They examine the variety of identities available to individuals in early modern England and the ways in which these were invoked and employed **Class in Contemporary Britain** Kenneth Roberts,2011-02-15 Britain is one of the most unequal countries in the western world the richest one per cent own a vast proportion of the wealth while both the pay gap and spending habits remain incredibly divisive How do such divisions reflect contemporary ideas of class In what way does economic life affect individuals and social relationships What are the implications for society as a whole This thoroughly revised second edition of *Class in Contemporary Britain* uses class theory to interrogate and explain patterns and trends in economic inequalities and to explore their consequences from a sociological view Addressing and debating timely questions this new edition Assesses different ways of mapping class structures through class schemes Highlights the continued importance of class in

sociological study and analyses contemporary social class divisions Explores key topics including social mobility voting habits and education Reflects on recent changes and developments in the field from environmental and technological concerns to shifts in class demographics This comprehensive and accessible book disentangles the complex ties between economic social and political perspectives on class in contemporary Britain It is essential reading for all social sciences students who are studying class Reconfiguring Identities and Building Territories in India and South Africa Philippe
