Gavrilyuk, Andrew P. Hofer, Matthew Levering, 2024-07-19 Modern theological engagements on deification have undergone two major paradigm shifts First the study of deification shifted from the periphery of theological discourse to its center For Adolf von Harnack deification was a pagan import that fatally corrupted and distorted the Gospel message of salvation In response the positive retrieval of the concept of deification belongs to the early years of the twentieth century By the 1910s in Russian religious thought and by the 1930s in much Roman Catholic theology deification had become a magnet concept attracting attention from many different viewpoints The second important shift relates to how deification is characterized Recent studies question the exclusively Eastern character of deification and draw attention to the engagements of this theme in Latin patristic and later Western Christian sources Reassessing the evidence for these two major shifts The Oxford Handbook of Deification comprehensively explores the points of convergence and difference on the constitutive elements of deification in different traditions and offers a foundation for ecumenical and interreligious dialogues The Handbook s first part analyzes the cultural and scriptural roots of deification the second part explores the most significant historical contributions to the understanding of deification in the early medieval and modern periods the third part develops systematic connections Readers will discover a surprising breadth depth and diversity of theologies of deification in Christian traditions Throughout the Handbook leading scholars in the field of Deification Studies propose vital new insights from a variety of perspectives for this central mystery at the heart of the Christian faith *Prayer: Oxygen for the Soul* Fr. Jacques

Christian Faith and the Theological Life Romanus Cessario, 1996 What does it mean to believe in God This question still provokes a recalcitrant world In spite of the apparent disinterest of our age the religious question continues to task and to vex sometimes quietly sometimes dramatically When religious divisions occasion civil strife believers are faced with an even more radical inquiry Wherein lies the real truth about Christian doctrine and its place in our lives Can we appeal to any authority for belief How do we escape the suspicions of a skeptical age In this book Romanus Cessario explores these questions and suggests responses taken from the history of theology He offers a readable account of the accumulated wisdom of the Christian tradition concerning the faith question citing as major authorities the saints those who have realized the will of God throughout the ages Faith supplies not only the assurance but also the substance of things hoped for The experience of Israel teaches that God has foreseen something better for us this something better resides in the Word of God that takes flesh in the womb of the Virgin Mary Because it keeps being born again in the heart of every believer as St Thomas Aquinas reminds us it leads us to the blessedness of eternal life Since the end of the Second Vatican Council in 1965 authors have dealt mainly with the existential dimensions of Christian life This volume the fruit of more than two decades of contemplation on the virtues of Christian life complements these as well as historical studies about faith It presents a coherent meditation on faith s principal concerns its acts of belief and confession and its character as a virtue in the Christian life Father Cessario explains how the mysteries of faith what the Christian believer professes each Sunday in

the Creed transform our lives and make us living images of the Triune God Consequently this book will meet a wide range of needs by answering the questions of the informed reader animating study groups and parish seminars and stimulating the ordinary believer to appropriate the depth of the riches and the wisdom and knowledge of God

Christ the Logos of Creation: An Essay in Analogical Metaphysics John R. Betz, 2023-09-28 The Prologue of the Gospel of John identifies Jesus Christ as the eternal Word or Logos of the Father who became flesh for the salvation of the world Yet the world that Christ saves is his world from the beginning for he is also the Logos of creation the one through whom all things were made John 1 3 This divinely revealed claim has profound implications not only for theology but also for metaphysics whose relation to Christian doctrine was undermined over the course of the twentieth century such that the Christian faith has become an increasingly private affair rather than a credible account of reality and an invitation to participate more fully in it With *Christ the Logos of Creation* John Betz seeks to recover a Christ centered analogical metaphysics and to establish the indispensability of such metaphysics for Christian theology and the Christian vision of reality In Part I he dispels the fog of confusion about analogical metaphysics and addresses the ecumenical issues posed by Karl Barth s famous rejection of the *analogia entis* Part II demonstrates how analogical metaphysics helps to explain Christian doctrine and sheds new light on the interrelationship between individual doctrines including Trinitarian theology Christology and soteriology and theological anthropology In Part III Betz explores how this analogical perspective can aid in resolving a number of theological disputes including the metaphysical relationship between nature and grace and the issue of divine humility Finally Part IV outlines further directions toward a fully Christological metaphysics that is proportionate both to the challenges of modern theology and the reality of our life in Christ the Logos
