Wittgenstein on Freud Reexamined: Psychoanalytic Treatments as Language-Games Józef Bremer, 2025-06-19 In Wittgenstein on Freud Reexamined psychoanalytical therapy is interpreted with the Wittgensteinian term language game Both terms are embedded in their different practical horizons of use rich in content and share a familiar context of everyday language This book is an extensive and detailed investigation of the primary sources An original perspective on psychoanalytical therapy emerges from rereading Freud and Wittgenstein through the primacy of language in their work The possibility of significantly expanding the use of language games results from a careful examination of the beginnings of psychoanalysis Wittgenstein's ambivalent attitude toward psychoanalysis appears in a new light Landscape Aesthetics Alberto L. Siani, 2024-07-16 Winner 2025 International Original Work Italian Society for Aesthetics The notion of landscape typically seems innocuous associated with leisure and contemplation Likewise aesthetics is often seen as apolitical a matter of subjective tastes and preferences This book challenges the common understanding of these categories as disengaged and demonstrates how uniting landscape studies and philosophical aesthetics opens new ways of addressing both the environmental crisis and the crisis of the humanities Alberto L Siani argues that the concept of landscape helps us overcome deeply ingrained oppositions such as nature and culture spirit and flesh or the environment and the human Landscape represents the intersection of these categories and therefore provides a helpful vantage point on contemporary predicaments that cannot be understood within dualistic frameworks An engaged aesthetics shows that landscapes are not simply ways of seeing the world but ways of being in the world offering practical guidance for inhabiting places ethically Landscape Aesthetics sheds new light on issues spanning art and its interpretation environmentalism temporality lived spaces justice education and interdisciplinarity Bringing together a wide range of sources across philosophy and other disciplines as well as personal experience Siani reveals the key role of landscape and aesthetics in responding to the pressing crises we face today Language and Myth Ernst Cassirer, 1953 *Selected Essays on Language, Mythology and Religion* Friedrich Max (Indologe) Müller, 1976 Selected Essays on Language, Mythology and Religion F.
