Stoddart, 2018-03-29 The BBC television series Downton Abbey 2010 2016 highly rated in the UK achieved cult status among American viewers harking back to the days when serial dramas ruled the airwaves The show s finale was one of the most watched in all of television history This collection of new essays by British and American contributors explores how a series about life in an early 20th century English manor home resonated with American audiences Topics include the role of the house in literature and film the changing roles of women and the servant class the influence of jazz and fashion and attitudes regarding education and the class system *Heritage and Englishness as depicted in "Downton Abbey"* Lenka Šerešová, 2016-08-23 Essay from the year 2016 in the subject English Language and Literature Studies Literature grade A University of Leipzig Anglistik course Literaturwissenschaft language English abstract Downton Abbey has become without a doubt one of the most popular series in the history of British television Brought to life under the wings of ITV it became a method of preserving history and national identity of Great Britain By watching Downton people not only spend some quality time entertaining themselves they also learn about history of their own country and compare the life of the main characters with their own Downton Abbey is one of the latest examples of a screen genre that flourished mainly in 1980s and 1990s in Britain during the Thatcher years The on screen representation of the past became favourite way how to preserve history and Britishness Thatcher s National Heritage Acts of 1980 and 1983 became some kind of a catalyst for producing heritage films and series For cultural critics the heritage genre was a means for government to create a great heritage industry that would push Britain under the spotlight of international audiences and help develop interest in Britain s tourism Nowadays the heritage films and dramas are easily recognisable It all started with Jane Austen television adaptations by BBC They portrayed aristocratic mansions and middle class homes and examined privileged lives of those living in them Merchant Ivory Howards End and many more followed showing precisely the same things A heritage consumer industry was formed that sold the past to audiences not only as an

experience but also as a product that could be bought and enjoyed The main purpose of the paper is to discuss the way how the series portrays the remains of a way of life that is no longer lived the historical setting and characters the relationship between aristocracy and servants and the impact of historical details that shaped the period and brought significant changes
