**The Varieties of Transcendence** Hans Joas, Matthias Jung, Magnus Schlette, 2016-02-01 The Varieties of Transcendence traces American pragmatist thought on religion and its relevance for theorizing religion today The volume establishes pragmatist concepts of religious individualization as powerful alternatives to the more common secularization discourse In stressing the importance of Josiah Royce's work it emphasizes religious individualism's compatibility with community At the same time by covering all of the major classical pragmatist theories of religion it shows their kinship and common focus on the interrelation between the challenges of contingency and the semiotic significance of transcendence

**The Varieties of Transcendence** Hermann Deuser, 2016

**The Varieties of Transcendence in Philosophy and Religion** James E. Faulconer, 2003-04-16 Can transcendence be both philosophical and religious Do philosophers and theologians conceive of the same thing when they think and talk about transcendence Philosophy and religion have understood transcendence and other matters of faith differently but both the language and concepts of religion including transcendence reside at the core of postmodern philosophy Transcendence in Philosophy and Religion considers whether it is possible to analyze religious transcendence in a philosophical manner and if so whether there is a way for phenomenology to think transcendence directly Attention is devoted to the role of French philosophy particularly the work of Levinas Ricoeur Derrida and Marion in defining recent debates in the philosophy of religion and posing new ways of thinking about religious experience in a postmodern world

*Transcendence and Self-transcendence* Merold Westphal, 2004 The question of the transcendence of God has traditionally been thought in terms of the difference between pantheism which affirms that God is wholly within the world and theism which affirms that God is both within and outside the world both immanent and transcendent Against Heidegger's critique of onto theology and the general postmodern concern for respecting and preserving the difference of the other Merold Westphal seeks to rethink divine transcendence in relation to modes of human self transcendence Touching upon Spinoza Hegel Augustine Pseudo Dionysius Aquinas Barth Kierkegaard Levinas Derrida and Marion Westphal's work centers around a critique of onto theology the importance of alterity the decentered self and the autonomous transcendental ego Westphal's phenomenology of faith sets this book into the main currents of Continental philosophy of religion today

Transcendence and Hermeneutics A.M. Olson, 2012-12-06 The problem of Transcendence is the problem of our time I Needless to say Transcendence was a particularly lively issue when Karl Heim wrote these words in the mid 1930's Within the province of philosophical theology and philosophy of religion however it is always the problem as Gordon Kaufman has recently reminded us For the question concerning the nature and the reality of Transcendence has not only to do with self transcendence but with the being of Transcendence Itself that is to say with the nature and the reality of God as experienced and understood at any given time or place Now there are

those today who would claim that any further discussion of the latter half of this proposition namely Transcendence Itself or God is worthless and quite beside the point Such persons would claim that the particular logia represented by the theological sciences has collapsed by virtue of its object having disappeared Indeed when one surveys the contemporary scene in philosophy and theology there is a good deal of evidence that this is the case theology of late having become something of a spectacle to use Pritz Buri's term One of the reasons for this we here contend is that the richness and the diversity of the meaning of Transcendence has been lost And even though we do not here intend to resolve the issue neither do we assume that such an enquiry is either impossible or irrelevant

### **Transcendence, Immanence, and Intercultural Philosophy**

Nahum Brown, William Franke, 2016-12-20 This book presents detailed discussions from leading intercultural philosophers arguing for and against the priority of immanence in Chinese thought and the validity of Western interpretations that attempt to import conceptions of transcendence The authors pay close attention to contemporary debates generated from critical analysis of transcendence and immanence including discussions of apophysis critical theory post secular conceptions of society phenomenological approaches to transcendence possible world models and questions of practice and application This book aims to explore alternative conceptions of transcendence that either call the tradition in the West into question or discover from within Western metaphysics a thoroughly dialectical way of thinking about immanence and transcendence

### **Transcendence and the Sacred** Alan Olson, 1981-11-30

### **Considering Transcendence** Martin J. De Nys, 2009 A

phenomenological account of religious life *Transcendence and the Sacred* Alan M. Olson, Leroy S. Rouner, 1981 A

### **Logic and Transcendence**

Frithjof Schuon, 2009-08-16 In this new edition of his most important

philosophical work Frithjof Schuon confronts the pitfalls of rationalism and relativism within modern philosophy This new edition comprises a fully revised translation from the French original and contains an extensive Appendix with previously unpublished letters and other private writings

### **Transcendence** Margaret Scotford Archer, Andrew Collier, Douglas V.

Porpora, 2004 The book explores religious experience as a justifiable reason for religious belief demonstrating that the three pillars of Critical Realism ontological intransitivity epistemic relativity and judgemental rationality can be applied to religion

### Interpreting and Explaining Transcendence Robert A. Yelle, Jenny Ponzio, 2021 Religious experience has often been

defined as an encounter with Transcendence Yet humans arguably have always tried to stretch their limits to get outside or beyond themselves or society In this volume an interdisciplinary group of scholars use

### **Paths to**

**Transcendence** Reza Shah-Kazemi, 2006-02-22 This groundbreaking book is the first to compare and illuminate the doctrine of the Transcendent Absolute and its implications both conceptually and experientially in the spiritual perspectives of three towering figures in the history of world religions Shankara Ibn Arabi and Meister Eckhart represent the metaphysical and mystical summits of Hinduism Islam and Christianity By focusing on the theme of transcendence often neglected in studies of religion and comparative mysticism this work takes the reader to the heart of Religion as such ultimately illuminating the unity of spiritual vision and experience which underlies all religious forms In our day when there is much strife between several religious factions the teachings of these great masters illustrated through rigorous analysis of key primary texts point to a path of true ecumenical understanding

**Self-Transcendence and Prosociality** Martin Dojcár, 2018-02-05 This book is a study in philosophy of religion which proposes a new inversion model of self transcendence At the same time the study examines the relation between self transcendence and prosociality in order to broaden our understanding of self transcendence also as a moral concept relevant to human behavior and its ethical reflection The inversion model of self transcendence is based both on the intentionality analysis of consciousness and phenomenological analysis of self transcendence conducted on examples of great figures of spirituality from the East and the West an anonymous medieval Christian author of The Cloud of Unknowing an Indian sage Ramana Maharshi and a contemporary spiritual teacher Eckhart Tolle
