Exodus How Migration Is Changing Our World:

Exodus Paul Collier, 2013 Magisterial Paul Collier offers a comprehensive incisive and well written balance sheet of the pros and cons of immigration for receiving societies sending societies and migrants themselves For everyone on every side of this contentious issue Exodus is a must read Robert Putnam Malkin Professor of Public Policy Harvard University and author of Bowling Alone

The Ties That Bind David Leblang, Benjamin Helms, 2023-02-09 Migration is among the central domestic and global political issues of today Yet the causes and consequences and the relationship between migration and global markets are poorly understood Migration is both costly and risky so why do people decide to migrate What are the political social economic and environmental factors that cause people to leave their homes and seek a better life elsewhere Leblang and Helms argue that political factors the ability to participate in the political life of a destination are as important as economic and social factors Most migrants don't cut ties with their homeland but continue to be engaged both economically and politically Migrants continue to serve as a conduit for information helping drive investment to their homelands The authors combine theory with a wealth of micro and macro evidence to demonstrate that migration isn't static after all but continuously fluid

The Immigrant Superpower Tim Kane, 2021-08-16 In *The Immigrant Superpower* Tim Kane argues that immigration has long been a source of American strength and that exceptional immigrants have been crucial to American exceptionalism Deftly combining stories of immigrants who have contributed to the American experience with analysis of the effects of immigration on wages and unemployment Kane's impassioned view of how immigration has made America great stands in contrast to the broken and dysfunctional debate about immigration

The Last 10 Per Cent Erica Harper, 2023-03-28 Criticism that the development sector has not delivered in terms of eliminating extreme poverty fast tracking growth and preventing conflict is neither new nor surprising In fact it may be the one thing that scholars donors and practitioners agree on While many of these concerns are valid this book makes a case that the sector is closer to unlocking the gates to more effective and efficient development outcomes than is popularly believed Specifically it argues that by overturning a few myths making better use of evidence and employing some different rules practitioners policy specialists and donors can foster the changes in the development architecture that are needed to reach the 10 percent of the world's population still living in extreme poverty Engaging provocative and clear sighted the book provides insight into interventions around democratic governance refugee response counterterrorism gender mainstreaming environmental protection and private sector engagement It is instructive reading for professionals across the development sector think tanks and NGOs

Refugees Now Kelly Oliver, Lisa M. Madura, Sabeen Ahmed, 2019-04-03 This important new book examines the status of refugees from a philosophical perspective The contributors explore the conditions faced by refugees and clarify the conceptual practical and ethical issues confronting the contemporary global community with respect to refugees The book takes up topics ranging from practical matters such as the social and political production of refugees refugee status and the

tension between citizen rights and human rights and the handling of detention and deportation to more conceptual and theoretical concerns such as the ideology rhetoric and propaganda that sustain systems of exclusion and expulsion to the ethical dimensions that invoke hospitality and transnational responsibility Ideal for students and scholars in Political and Social Philosophy and Migration Studies more broadly the book provides a critical commentary on material responses to contemporary refugee crises as a means of opening pathways to more pointed assessments of both the political and ideological underpinnings of statelessness Law, Religion and Human Flourishing in Africa M. Christian Green, 2019-05-15 A shared interest of law and religion is the advancement of human flourishing yet there is no common understanding of what it means for humans to flourish and the means by which to attain a flourishing life The concept of human flourishing is especially important for Africa where community and national development compete with forces of conflict and scarce resources In the broadest sense the concept of human flourishing focuses our attention on having a comprehensively good or worthwhile life but various religious and legal traditions suggest different norms for measuring the quality of life and designing the institutional structures that could best facilitate and preserve it *Migration* Alasdair S. Roberts, 2015 Review of Collier Paul 2013 *Exodus How Migration Is Changing Our World* New York Oxford University Press 2013 **Journal of Economic Literature** ,2014 **Immigration, Emigration, and Migration** Jack Knight, 2017-01-17 Immigration Emigration and Migration consists of essays written by distinguished scholars across the fields of law political science and philosophy that examine questions of travel and migration across national borders Questions of immigration and border enforcement practices are particularly salient in contemporary public discourse and examinations of policy and practice bring forth new philosophical quandaries Why the common assumption that each country has the right to control its own borders How are laws that restrict or regulate migration created and justified Why has the criminalization of migration increased How can migration be better considered through the point of view of the migrants themselves What are the differences in international and national institutional migratory policy The volume explores questions of border control and enforcement criminalization of borders and how to address current debates and changes in regards to migration and immigration The intersection of analysis and prescription provides both an assessment of current forms of thought or regulation and suggestion of alterations to address the flaws or failures of present approaches The eight essays in this volume reflect a variety of considerations and explorations across interdisciplinary lines and provide a new and thought provoking discussion of policy practice and philosophy of migratory and border practices **Le Cameroun contre sa diaspora** Raoul Nkuitchou Nkouatchet, 2019-08-19 La diaspora camerounaise est l'une des plus dynamiques d'Afrique subsaharienne Et pourtant rien n'est sérieusement engagé pour mobiliser ses expatriés au processus de développement de leur premier pays L'auteur mobilise la socio-économie et la science politique pour affirmer deux choses clefs Premièrement la diaspora est l'un des atouts déterminants du Cameroun dans la perspective de son émergence de loin son plus grand gisement
