

SOCIAL MEDIA LITERACY

WHAT AND WHERE ARE MIDDLE SCHOOLERS LEARNING ABOUT SOCIAL MEDIA?

In a mixed method study, we surveyed **229 school staff members** and **419 parents** from 4 school districts in the Northeast and interviewed 30 parents and 6 school staff members.

Most frequently discussed topics amongst educators:

49% of educators discussed how student technology use **interferes with sleep**

46% of educators discussed students **craving constant access to devices**

43% of educators discussed considering **how online posts affect others**

Most frequently discussed topics amongst parents:

With 92% of parents reporting discussing **stranger danger**, it was the most popular topic from our survey

90% of parents discuss **cyberbullying** and mean online behaviors

85% of parents warned their children of being influenced by **peer-induced risky behaviors** online (vaping, skipping school, alcohol, etc.)

FINDINGS

- Educators focused on the prevention of their students being victimized by their own addictive and self-regulatory behaviors while parents focused more on preventing their teens from unsafe or risk-taking online peer influences.
- The fact that educators and parents **focus on different aspects** of the digital wellbeing of the child could be turned into a strength of a home-school partnership that is not competing but **complementary** with one another.

graduate students as well as for practitioners and policy makers Media Literacy in Action Renee Hobbs, 2024-10-14 There has never been a more important time for students to develop media literacy competencies. When students ask critical questions about the media they consume, they develop fundamental knowledge and critical thinking skills that prepare them for life, work, and meaningful citizenship. Media Literacy in Action addresses learners who are simultaneously active as both creators and consumers of media messages. At the same time, the book recognizes that everyone is vulnerable to media influence because of our dependence on the instant gratification and feelings of connectedness that digital platforms provide. To thrive in a media-saturated society, people need to ask critical questions about what we watch, see, listen to, read, and use. This book gives students those tools. Key features of the second edition: Critical examination of AI technologies, algorithmic personalization, data privacy, and surveillance; and the increased global regulation of digital platforms. Attention to media literacy for empowerment and protection. Inquiry-oriented approach to learning that cultivates intellectual curiosity and creative expression. Full-color presentation with figures and photos to increase student engagement. Each chapter includes Media Literacy Trailblazers: Profiles of key thinkers and their theories connect students with the discipline of media literacy. Media Literacy DISCourse NEW: Visual representations of media literacy theoretical principles help learners internalize the practice of asking critical questions as they respond to specific media examples. Learning in Action NEW: Summary and vocabulary sections combine with Analyze, Create, Reflect, and Act activities to empower students to apply ideas from each chapter. Supplemental Materials available at www.mlaction.com. Students can review key ideas, learn about more Media Literacy Trailblazers, and watch videos aligned with each chapter. Instructors can access a Teacher's Guide of best practices in class activities, homework, and projects. Also available are chapter summaries, lecture slides, YouTube playlists, and test materials.
