how to not only be their own bodyguard but how to learn new skills so that they may eventually protect other people
professionally If you want to learn the business and become a Private Security or Close Protection Operator you must learn a
series of skill sets How you gain any skill set can vary from person to person Some people acquire the skills in the military
police or even after years of hands on martial arts training You do not have to become a Green Beret Navy SEAL or CIA
Contractor to acquire a series of proficient skill sets on survival combatives or shooting All you have to do to acquire some
new skills in personal protection is to have the desire to learn and then apply what you have learned safely and with a high
level of proficiency I will pass on small pearls of wisdom throughout this book The gems that I pass on to you have been
passed on to me in many different ways throughout my life Each jewel will be a new skill or a direction to learn The more that
you learn the more you will understand Any person with the passion for learning will pick up these new skills and instantly
apply them The more that you read about close protection the more you will learn from this book The more that you
physically do the more ingrained your skills will become into daily operational procedures Even if you learn just one new
thing from this book that saves your life or someone else's then it was worth learning that skill Stay flexible in your thinking
and keep an open mind as you read this book The more you learn about yourself the more you will want to know and apply

Political Terrorism Albert J. Jongman, 1988 While there is no easy way to define terrorism, it may generally be viewed as a method of violence in which civilians are targeted with the objective of forcing a perceived enemy into submission by creating fear, demoralization, and political friction in the population under attack. At one time a marginal field of study in the social sciences, terrorism is now very much in center stage. The 1970s terrorist attacks by the PLO, the Provisional Irish Republican Army, the Popular Front for the Liberation of Palestine, the Japanese Red Army, the Unabomber, Aum Shinrikyo, Timothy McVeigh, the World Trade Center attacks, the assault on a school in Russia, and suicide bombers have all made the term terrorism an all too common part of our vocabulary. This edition of *Political Terrorism* was originally published in the 1980s, well before some of the horrific events noted above. This monumental collection of definitions, conceptual frameworks, paradigmatic formulations,

and bibliographic sources is being reissued in paperback now as a resource for the expanding community of researchers on the subject of terrorism This is a carefully constructed guide to one of the most urgent issues of the world today When the first edition was originally published Choice noted This extremely useful reference tool should be part of any serious social science collection Chronicles of Culture called it a tremendously comprehensive book about a subject that any who have anything to lose from property to liberty life to limbs should be forewarned against Alex P Schmid received his Ph D from the University of Zurich Switzerland and is a professor in the Department of Political Science at Leiden University He is the coauthor with Albert J Jongman of Soviet Military Interventions since 1945 available from Transaction Albert J Jongman is principal researcher for PIOOM the Interdisciplinary Research Programme on Causes of Human Rights Violations and has been a research assistant at the SIPRI in Sweden He is the author of Monitoring Human Rights Violations State Violence State Terrorism and Human Rights Irving Louis Horowitz is Hannah Arendt Distinguished University Professor Emeritus of Sociology and Political Science at Rutgers University and the chairman and editorial director of Transaction Publishers
