Consumer Involvement in Private EU Competition Law Enforcement Maria Ioannidou, 2015-09-03 Despite the growing importance of consumer welfare in EU competition law debates there remains a significant disconnect between rhetoric and reality as consumers and their interests still play only an ancillary role in this area of law Consumer Involvement in Private EU Competition Law Enforcement is the first monograph to exclusively address this highly topical and much debated subject providing a timely and wide ranging examination of the need for more active consumer participation in competition law Written by an expert in the field it sets out a comprehensive framework of policy implications and arguments for greater involvement positioning the debate in the context of a broader EU law perspective It outlines pragmatic approaches to remedial and procedural measures that would enable consumer empowerment Finally the book identifies key institutional and political obstacles to the adoption of effective measures and suggests alternative routes to enhance the role of consumers in private competition law enforcement The book s innovative approach combining normative analysis and practical solutions make it invaluable for academics policy makers and practitioners in the field

Warsaw Pact Intervention in the Third World Philip E. Muehlenbeck, Natalia Telepneva, 2018-05-04 It was long assumed that the Soviet Union dictated Warsaw Pact policy in Africa Asia the Middle East and Latin America known as the Third World during the Cold War Although the post 1991 opening of archives has demonstrated this to be untrue there has still been no holistic volume examining the topic in detail Such a comprehensive and nuanced treatment is virtually impossible for the individual scholar thanks to the linguistic and practical difficulties in satisfactorily covering all of the so called junior members of the Warsaw Pact This important book fills that void and examines the agency of these states Czechoslovakia the German Democratic Republic Poland Hungary Bulgaria and Romania and their international interactions during the discovery of the Third World from the 1950s to the 1970s Building upon recent scholarship and working from a diverse range of new archival sources contributors study the diplomacy of the eastern and central European communist states to reveal their myriad motivations and goals importantly often in direct conflict with Soviet directives This work the first revisionist review of the role of the junior members as a whole will be of interest to all scholars of the Cold War whatever their geographical focus

Economic Dignity Gene Sperling, 2021-10-12 Timely and important It should be our North Star for the recovery and beyond Hillary Clinton Sperling makes a forceful case that only by speaking to matters of the spirit can liberals root their belief in economic justice in people s deepest aspirations in their sense of purpose and self worth The New York Times When Gene Sperling was in charge of coordinating economic policy in the Obama White House he found himself surprised when serious people in Washington told him that the Obama focus on health care was a distraction because it was not focused on the economy How he asked was the fear felt by millions of Americans of being one serious illness away from financial ruin not considered an economic issue Too often Sperling found that we measured economic success by metrics like GDP instead of whether the economy was

succeeding in lifting up the sense of meaning purpose fulfillment and security of people In Economic Dignity Sperling frames the way forward in a time of wrenching change and offers a vision of an economy whose guiding light is the promotion of dignity for all Americans

Practical Macroeconomics for Non-Economists Michael P. Niemira, 2023-07-10 Practical Macroeconomics for Non Economists provides the tools the theory and the empirical understanding of macroeconomics without the heavy lifting of the mathematical and econometric models This accessible book introduces the building blocks of macroeconomic thinking and challenges the reader to apply these insights to learn why economists say what they do and what guides economic policymakers Linking actual data to theoretical concepts it explores competing economic theories and uncovers some of the key controversies in macroeconomic theory and how different perspectives lead to alternative and vastly different policy recommendations Key features include Coverage of all the key macroeconomic topics such as GDP inflation unemployment output and productivity business cycles aggregate demand supply and fiscal and monetary policy Question and answer format covering the foundations of each topic in a logical progression to provide the reader with a quick reference and more focused discussion Advanced questions to encourage deeper discussion Start of chapter learning objectives which allow the reader to see the road ahead for each section End of chapter Issues to think about boxed features which offer the reader an opportunity to apply critical thinking to the issues covered Resource manual and PowerPoints for instructors Practical Macroeconomics for Non Economists is the ideal textbook for anyone looking for a practical and non technical introduction to the subject
