The Painter's Touch Ewa Lajer-Burcharth,2018-01-08 A new interpretation of the development of artistic modernity in eighteenth century France What can be gained from considering a painting not only as an image but also a material object How does the painter's own experience of the process of making matter for our understanding of both the painting and its maker The Painter's Touch addresses these questions to offer a radical reinterpretation of three paradigmatic French painters of the eighteenth century In this beautifully illustrated book Ewa Lajer Burcharth provides close readings of the works of François Boucher Jean Sim on Chardin and Jean Honor Fragonard entirely recasting our understanding of these painters practice Using the notion of touch she examines the implications of their strategic investment in materiality and sheds light on the distinct contribution of painting to the culture of the Enlightenment Lajer Burcharth traces how the distinct logic of these painters work the operation of surface in Boucher the deep materiality of Chardin and the dynamic morphological structure in Fragonard contributed to the formation of artistic identity Through the notion of touch she repositions these painters in the artistic culture of their time shifting attention from institutions such as the academy and the Salon to the realms of the market the medium and the body Lajer Burcharth analyzes Boucher's commercial tact Chardin's interiorized craft and Fragonard's materialization of eros Foregrounding the question of experience that of the painters and of the people they represent she shows how painting as a medium contributed to the Enlightenment's discourse on the self in both its individual and social functions By examining what paintings actually say in brushstrokes texture and paint The Painter's Touch transforms our understanding of the role of painting in the emergence of modernity and provides new readings of some of the most important and beloved works of art of the era

Gusto for Things Renata Ago,2013-04-22 We live in a material world our homes are filled with things from electronics to curios and hand me downs that disclose as much about us and our aspirations as they do about current trends But we are not the first the early modern period was a time of expanding consumption when objects began to play an important role in defining gender as well as social status Gusto for Things reconstructs the material lives of seventeenth century Romans exploring new ways of thinking about the meaning of things as a historical phenomenon Through creative use of account books inventories wills and other records Renata Ago examines early modern attitudes toward possessions asking what people did with their things why they wrote about them and how they passed objects on to their heirs While some inhabitants of Rome were connoisseurs of the paintings books and curiosities that made the city famous Ago shows that men and women of lesser means also filled their homes with a more modest array of goods She also discovers the genealogies of certain categories of things for instance books went from being classed as luxury goods to a category all their own and considers what that reveals

about the early modern era An animated investigation into the relationship between people and the things they buy Gusto for Things paints an illuminating portrait of the meaning of objects in preindustrial Europe Inventing the Indigenous Alix Cooper,2007-03-19 Drawing on cultural social and environmental history as well as the histories of science and medicine this book shows how amidst a growing reaction against exotic imports whether medieval spices like cinnamon or new American arrivals like chocolate and tobacco early modern Europeans began to take inventory of their own indigenous natural worlds
