Explorations In Subjectivity Borders And Demarcation A Fine Line:

Explorations on Subjectivity, Borders, and Demarcation Raúl A. Galoppe, Richard Weiner, 2005 With the pressures of globalization internationalization of production migration and the transmission of information former concepts of identity and cultural configuration are increasingly challenged In *Explorations on Subjectivity Borders and Demarcation* editors and contributors Raúl A Galoppe and Richard Weiner examine the shift in subjectivity borders and demarcation within Iberian and Latin American studies This comprehensive volume examines these issues in terms of race economy gender and marginality By using an interdisciplinary approach that draws from literature literary theory and history this collection offers a timely discourse for the entire academic community In contrast to similar studies this collection goes beyond the geographic aspects of borders and demarcation These articles not only examine Latin American places and people but also the Latin American identity in Europe and the Mediterranean and the experiences of other groups such as Asian Latin Americans and Indians This collection of nine articles from both established scholars and new academic voices serves as a well knit mosaic of perspectives that reflect the intermingling state of subjectivity borders and demarcation and in turn postmodern academia

Reconceptualizing Study in Educational Discourse and Practice Claudia W. Ruitenberg, 2017-04-07 Addressing studying as a distinct educational concept and phenomenon in its own right the essays in this volume consider study and studying from a range of perspectives Countering dominant educational discourses which place a heavy emphasis on learning and instruction the contributors explore questions such as What does it mean to study something How is studying something different from being taught about it or learning something about it What does the difficulty demanded by study mean for the one who studies and for the teacher What mode of existence does study induce The book highlights the significance of study not only or even primarily for its educational outcome but as a human activity *Imagined Identities* Gönül

Pultar, 2014-04-14 How are identities being forged during the age of globalization This collection of essays by scholars from various disciplines and regions of the world discusses both the construction and deconstruction of identity in its engagement with culture ethnicity and nationhood The authors explore the tension resulting from the desire to create a new cultural space for identities that are at once national regional linguistic and religious Among the wide ranging approaches Tanja Stampfl looks at the elusiveness of cultural identity in Khaled Hosseini's *The Kite Runner* Dawn Morais investigates issues of ethnicity and nationality in Malaysia's tourism advertising and Cathy Waegner explores ethnic identities as globalized market commodities Throughout the volume identity is approached from a variety of sites fiction news analysis film theme parks and field work to contribute new insight and perspective to the well worn debate over what identity signifies in societies where the existence of minorities both indigenous and immigrant challenges the dominant group **Women's Negotiations and**

Textual Agency in Latin America, 1500-1799 Mónica Díaz, Rocío Quispe-Agnoli, 2016-12-01 Even though women have been historically underrepresented in official histories and literary and artistic traditions their voices and writings can be

found in abundance in the many archives of the world where they remain to be uncovered The present volume seeks to recover women s voices and actions while studying the mechanisms through which they authorized themselves and participated in the creation of texts and documents found in archives of colonial Latin America Organized according to three main themes Censorship and the Body Female Authority and Legal Discourse and Private Lives and Public Opinions the essays in this collection focus on women s knowledge and the discursive traces of their daily concerns found in various colonial genres Herein we consider women not only as agents of history but rather as authors of written records produced either by their own hand or by means of dictations collaborations or rewritings of their oral renditions Inhabiting the territories of the Iberian colonies from Peru to New Spain the women studied in this volume come from different ethnic and social backgrounds from African slaves to the indigenous elite and to those who arrived from Iberia and were known as Old Christians Finally we have prepared this volume in hopes that the readers will find a particular appeal in archival sources in lesser known documents and in the processes involved in the circulation of knowledge and print culture between the 1500s and the late 1700s

Race, Nation, and Market Richard Weiner, 2022-09-06 Prior to the Revolution of 1910 economic ideals were a dominant mode of political and social discourse in Mexico Scholars have focused considerable attention on the expansion of the market economy during this period particularly its political economic and social importance Richard Weiner now enhances our understanding of the emergence of modern Mexico by exploring the market s immense symbolic significance Race Nation and Market traces the intellectual strands of economic thought during the late Porfiriato Even in the face of Díaz s political reign the market became the dominant theme in national discourse as contemporaries of all political persuasions underscored its social and cultural effects This work documents the ways in which liberals radicals and conservatives employed market rhetoric to establish their political identities and map out their courses of action and it shows how the market became an emblem linked to the identity of each group Weiner explains how the dominant political interests the científicos the Mexican Liberal Party and the social Catholics each conceived economic issues and he compares how they rhetorically used their conceptions of the market to promote their political objectives Some worshiped it as a deity that created social peace political harmony and material abundance while others demonized it as a source of social destruction Weiner delineates their approaches and reveals how distinct notions of race gender community and nationality informed economic culture and contradicted a laissez faire conception of society and economy By focusing on these rhetorical contests Race Nation and Market offers a new perspective on social mobilization in late nineteenth century Mexico as it also explores the related field of Porfirian economic culture and thought about which little thus far has been written In the face of today s controversy over globalization it offers a unique historical perspective on the market s long standing significance to political activism

Celebrations and Connections in Hispanic Literature Andrea Morris, Margaret Parker, 2009-03-26 The volume Celebrations and Connections in Hispanic Literature is itself a celebration of a tradition of scholarly dialogue in a

relaxed festive atmosphere The articles included here began as papers presented at the 25th Anniversary Edition of the Biennial Louisiana Conference on Hispanic Languages and Literatures held in Baton Rouge Louisiana February 23 24 2006 Each of the authors responds in innovative ways to the idea of connecting texts contexts and genres as well as to the disconnect that is often present between what we perceive as Hispanic identity and the experience of those left on the margin Topics include Celebrating and Rewriting Difference De colonized Identities Word and Image in the Spanish Golden Age and Latin American Literature and Politics among others The collection is demonstrative of current trends in Hispanic literary and cultural criticism which are increasingly less bound by traditional regional and temporal constructs While each author's research is rooted in a specific socio historic context their combined contributions to the present volume provide a far reaching perspective that expands the notion of text to go beyond the literary and engage a multitude of disciplines it emphasizes the often illuminating connections among literary and cultural texts which can be drawn when one conceives of Hispanism and its literary and cultural fields as shaped by trends and issues rather than divided by periods and regions What strikes me most is the newness of each piece While each is very well informed none rehearses old historical or theoretical ground more than is absolutely necessary but rather presents either a new or overlooked text or offers a new approach Leslie Bary University of Louisiana Lafayette An impressive array of well established and younger scholars has produced a volume whose scope is the entire Hispanic world extending from the Golden Age to the contemporary era This volume will be of interest to all scholars and critics of Hispanic literature as well as to historians and political scientists Many of the essays challenge traditional assumptions about the colonization of the Hispanic world as well as the motivations for the revolutions for independence whose influence is still strongly alive in contemporary treatments of fundamental questions of national identity race class and gender C Chris Soufas Jr Tulane University Historia ,2006 *Estudos Ibero-americanos* ,2007
