Taylor,2022-02-18 Finding silence amidst restlessness is what makes creative life possible and death comprehensible But how do we find more importantly how do we understand silence while immersed in the chattering of the digital age Have we forgotten how to listen Are we less prepared than ever for the ultimate silence that awaits us all Mark C Taylor s new book is a philosophy of silence for our nervous buzzing present a timely work for a world where noise is a means of distraction domination and control Here Taylor asks the reader to pause long enough to hear what is not said and to attend to what remains unsayable But in his account our way to hearing silence is to see it Taylor explores variations of silence by considering the work of leading modern and postmodern visual artists from Barnett Newman and Ad Reinhardt to James Turrell and Anish Kapoor Drawing also on the insights of philosophers theologians writers and composers he weaves a rich narrative modeled on the Stations of the Cross We come from and return to silence in between silence is the gap hesitation interval that allows thoughts to form and words to emerge he writes His chapter titles suggest our positions toward silence or rather our pre positions Without Before From Beyond Against Within Around Between Toward With In Recasting Hegel s phenomenology of spirit and Kierkegaard s stages on life s way Taylor translates the traditional Via Dolorosa into a Nietzschean Via Jubilosa that affirms silence in the midst of noise light in the midst of darkness **The Structurist** ,1997

Art Criticism and Modernism in the United States Stephen Moonie,2022-03-22 This study is an analysis of high and late modernist criticism in New York during the 1960s and early 1970s Through a close reading of a selection of key critics of the period which will expand the remit beyond the canonical texts the book examines the ways that modernist criticism s discourse remains of especial disciplinary interest Despite its alleged narrowness and exclusion the debates of the 1960s raised fundamental questions concerning the nature of art writing Those include arguments around the nature of value and judgement the relationship between art criticism and art history and the related problem of what we mean by the contemporary Stephen Moonie argues that within those often fractious debates there exists a shared discourse And further contrary to the current consensus that modernists were elitist dogmatic and irrelevant to contemporary debates on art the study shows that there is much that we can learn from reconsidering their writings The book will be of interest to scholars working in art history modern art art criticism and literary studies Color Chart Ann Temkin,2008 Color Chart celebrates

a paradox the lush beauty that results when contemporary artists assign colour decisions to chance readymade source or arbitrary system Midway through the 20th century long held convictions regarding the spiritual truth or scientific validity of particular colours gave way to an excitement about colour as a mass produced and standardized commercial product The Romantic quest for personal expression instead became Andy Warhol's I want to be a machine the artistry of mixing pigments was eclipsed by Frank Stella's Straight out of the can it can't get better than that This book and the exhibition it accompanies is the first devoted to this pivotal transformation and features work by some forty artists ranging from Ellsworth Kelly and Gerhard Richter to Sherrie Levine and Damien Hirst *Isamu Noguchi* Alison de Lima Greene, Valerie J.
