Nineteen Eighty-Three David Peace,2010-02-09 In *Nineteen Eighty Three* David Peace brings his astonishing series of riveting gritty crime novels to a shocking conclusion With three separate narrators whose paths are on a collision course Peace makes a dark study of perverted justice retribution and urban decay Maurice Jobson is a Yorkshire cop whose greed and corruption has rotted the police force to the core BJ is a local street thug who finds he can no longer safely lurk in the shadows and John Piggott a lawyer is as honest and forthright as they come His investigation of a long cold murder might just be the cure for Yorkshire's woes but he'll need to get through it alive first Nineteen Eighty David Peace,2010-03-16 Continuing the narrative begun with *Nineteen Seventy Four* and *Nineteen Seventy Seven* this electrifying third installment of David Peace's *Red Riding Quartet* demonstrates a skill that goes above and beyond the limits of the genre While Yorkshire is terrorized by the Ripper the corrupt police continue to prosper To give the case some new life Peter Hunter a clean cop from nearby Manchester is brought in to offer a fresh perspective As he goes about setting up a new case under the radar he suffers the same fate as those who previously attempted to get in the way of the Ripper his house is burned down his wife

The Ethics and Poetics of Alterity Maylis Rospide, Sandrine Sorlin, 2015-09-04 This volume focuses on language and ethics in literary genres such as dystopia science fiction and fantasy that depict encounters with alterity Indeed so called genre literature embodies a heuristic model that dramatizes and exacerbates these encounters by featuring exotic subhuman or post human beings that defy human knowledge elements particularly prevalent in science fiction and fantasy These genres have often been regarded as an entertaining or escapist field that does not lend itself to ethical and poetical reflections limiting its scope to a hollow and servile repetition of genre codes This volume shows unequivocally that this field does lend itself to such reflections The contributors to this book highlight genre literature s defamiliarising power through which things can be seen In meta conceptualising the relationship between language and reality it problematises and enhances this relation by making it more easily perceivable The book shows that rather than contenting itself with merely questioning the mechanism of estrangement genre literature explores the confines of readability and the boundary between the readerly and the writerly In their desire to represent the Other in all its complexity writers are indeed confronted with an ethical and poetical aporia how can what escapes humanity be described in human language How can human language represent things that have no known referent in the reader s world of experience This collection of essays reveals that the most prototypical traits of genre literature lie in the encounter with otherness and the linguistic issues this raises

Knowing Art Matthew Kieran, Dominic McIver Lopes, 2007-10-20 Artworks potentially convey two kinds of knowledge They obviously afford knowledge of art itself and they also afford general empirical knowledge especially knowledge of human psychology and value Knowing Art collects ten original essays written by leading philosophers who distill and build upon recent work at the intersection of aesthetics and epistemology Specific topics addressed include the objectivity of critical knowledge the quality of critical testimony the roles of principles and perception in critical reasoning phenomenal knowledge of what a work of art is like the acquisition of factual information and psychological understanding from fictions and the limits of images as sources of historical evidence In addressing these topics the volume also explores the challenges that art poses for theories of knowledge as well as the challenges that artistic knowledge poses to traditional views about art
