Globalized Water A Question Of Governance:

Globalized Water Graciela Schneier-Madanes, 2014-05-01 Globalized Water presents a compilation of voices that forms a unique scientific exploration of contemporary water management models and governance issues The book describes the water paradox how a local resource has become a global product and the implications of this in how we identify challenges and make policy in the water sector Over the last 20 years the foundations of local and national water systems have been rocked by a wave of changes The authors in this book experts in a wide range of disciplines address the resulting debates and issues water as a commodity and patrimony technological rent liberalization and privatization the continuing evolution of water management and policy at the European level decision making and stakeholder participation conflict and consensus and the inevitable growth of counterpowers at the local and international levels promoted by the advocates of sustainable development The selected case studies are from Europe primarily France but also Spain Germany the United Kingdom and Portugal Latin America Argentina Bolivia the United States Lebanon and India From this diverse collection of comparative perspectives and research methods Globalized Water seeks to advance interdisciplinary research contributing to a new and dynamic role for social sciences and governance on water

Globalization of Water Governance in South Asia Vishal Narain, Chanda Gurung Goodrich, Jayati Chourey, Anjal Prakash, 2018-05-11 Globalization has significantly redefined the nature of governance in the water sector Non state actors multilateral and transnational donor agencies and corporations non government organizations markets and civil society at large are assuming a bigger role in public policy making for water resource management New discourses on neoliberalism integrated water resource management IWRM public private partnerships privatization and gender equity have come to influence water governance Drawing upon detailed case studies from India Bangladesh Nepal Sri Lanka and Bhutan this volume shows the implications of these new global paradigms for water allocation and management practices institutions and governance structures in South Asia It suggests that despite claims to the contrary they have done little to further human well being reduce gender disparity or improve accountability and transparency in the system Steering away from blueprint approaches it argues for a more nuanced and contextual understanding of water management challenges based on local knowledge and initiatives This book will be useful to those interested in political economy and water governance natural resource management environmental studies development studies and public administration as well as to water professionals policy makers and civil society activists

Public Banks and Public Water in the Global South Thomas Marois, David A. McDonald, Susan Spronk, 2024-12-05 This volume presents the first systematic review of public bank lending in the water sector in the Global South Many public banks have an explicit mandate to finance public water management yet despite a resurgence of interest in public banks and the role they can play in sustainable development their role in funding water management has been largely ignored Drawing on case studies from Asia Africa and Latin America this book measures the scale and nature of interaction between public banks and public water

operators for the provision of safe drinking water and sanitation It identifies challenges and opportunities for deeper engagement between public banks and public water operators in the Global South and highlights promising practices showcasing how these might be transferred to different regions and different sectors Each case study is based on in depth interviews with public banks that have funded public water operators and public water operators that have borrowed from public banks including Banco Popular in Costa Rica the Development Bank of the Philippines the National Bank for Agricultural and Rural Development in India and the TIB Development Bank in Tanzania Overall this book provides a critical analysis of the potential of public banks to address global water security issues This book will be of great interest to students and scholars of water resource management water and health sanitation and sustainable development It will also be of interest to professionals and policymakers working with public and development banks in the supply of safe water and sanitation for all The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

The Evolution of the Law and Politics of Water Joseph W. Dellapenna, Gupta Joyeeta, 2009-04-21 According to a famous Talmudic story Babylonian Talmud Tractate Shabbat 31a a gentile once approached Rabbi Hillel and asked to be taught the entire Torah while standing on one foot Hillel replied Love your neighbour as yourself That is the entire Torah The rest is simply an explanation Go and learn it In much the same way Jewish law can be described in one word Torah All the rest is simply an explanation The Torah also known as the Bible the five books of Moses and the Pentateuch was written over 3 000 years ago Since then Jewish law has developed various interpretations and applications of the Torah interpretations of those interpretations and so on Jewish law contains civil dictates as well as religious protocol Problems that arose in the framework of religious life and problems surrounding civil relationships both found solutions in the same legal source the Torah and the Halacha the Jewish legal interpretations and rulings This chapter on water law in the Jewish tradition provides insight into Jewish law and custom in general and rules related to the protection of water sources in particular One should not look however to find a written code of Jewish law as there is none

The Politics of Water in Africa Inga M. Jacobs, 2012-11-02 Water resources and related issues are of great significance in 21st century politics In Africa for example hydropolitics affect politics and policymaking at the local national and international levels To investigate water politics this unique work focuses on the issue transboundary water governance in Southern and Eastern Africa Based on extensive field research it offers a comparative study of the Orange Senqu and Nile basins in Africa arguing that both causal and behavioral factors such as localization and trust building drive the multi leveled development of cooperative management norms and foster the creation of regional communities of interest The book combines theory analysis and fieldwork within the framework of Constructivism as well as a wide range of examples to identify and analyze the nature of norms in hydropolitics By doing so it will help shape the debate on how water conflict and cooperative governance should evolve and will interest anyone studying African politics hydropolitics and issues of development
