**European Union and NATO Expansion** A. Lasas, 2010-05-10 Following the disintegration of the Soviet bloc many Central and Eastern European Countries launched a vigorous return to Europe campaign which primarily focused on accession to NATO and the European Union By 2007 ten countries became members of the Euro Atlantic community personifying the long awaited reunification of Europe NATO Enlargement Ted Galen Carpenter, Barbara Conry, 1998 The decision to expand NATO eastward is a fateful venture that has received surprisingly little public attention Advocates of enlargement insist that the step will foster cooperation consolidate democracy and promote stability throughout Europe But the contributors to this volume conclude that an expanded NATO is a dubious potentially disastrous idea Instead of healing the wounds of the Cold War it threatens to create a new division of Europe and undermine friendly relations with Russia Even worse it will establish expensive dangerous and probably unsustainable security obligations for the United States

Future of NATO Charles-Philippe David, Jacques Lévesque, 1999-05-20 The Future of NATO looks at the conceptual and theoretical approaches that underlie the question of enlarging NATO's membership and the consequences of enlargement on international relations It examines the policies of some of NATO's leading member states including Canada which has recently begun a two year term on the security council and deals with the issue of enlargement from the point of view of the East European candidates focusing on Russia and its opposition to the current process Contributors include András Balogh Lorán Ertzsényi University of Toronto Martin Bourgeois Charles Philippe David UQAM André P. Donnez UQAM David G. Haglund Queen's University Philippe H. Montral Stanislaw J. Kirschbaum Glendon College Richard L. Kugler RAND National Defence University David Law Queen's University Paul L. Tourneau Montral Jacques Lévesque UQAM Gale Mattox U.S. Naval Academy Marie-Claude Plantin Université de Lyon 2 Sergei Plekhanov York University Jane M. O. Sharp Kings College London European Security and NATO Enlargement Stephen Blank, 1998 NATO's enlargement represents a watershed event in European security It closes the so called post Cold War epoch that began with the fall of the Soviet empire and opens the way to a new stage in European and American history The tendencies that are now pushing Europe towards greater integration have received a new injection of energy NATO has not only proven itself the only truly effective security provider among European institutions it has also shown itself to be the moving force behind Europe's other security agencies particularly the European Union EU After NATO decided to take in Hungary the Czech Republic and Poland at its Madrid Conference in July 1997 the European Union meeting at Amsterdam decided to begin accession talks with those three states Estonia Cyprus and Slovenia Thus concurrent and coinciding waves of integration throughout the continent are going to transform Europe's security map and agenda beyond recognition But this does not mean either that past history is now utterly irrelevant or that Europe has attained a kind of security Nirvana The Bosnian crisis and to a lesser degree the Albanian crisis of 1997 as well as the recent problems in Kosovo show that many challenges confront Europe and that Europe is reluctant to confront them 1 Insofar as out of area issues in the Middle

East are concerned the Iraqi crises of 1997 98 demonstrated that Europe remains divided unable to forge a common security policy for those issues in that region or to assume a leadership position in the resolution of international crises *Air University Library Index to Military Periodicals* ,1998 United States Code United States,1995 *U.S. Relations with Russia, Ukraine and Eastern Europe* ,1995 **The Strategic Implications of European Union Enlargement** Esther Brimmer,2005 Enlargement will change the nature of the European Union but how will it affect international affairs The EU and its member states command significant economic resources and have launched a Common Foreign and Security Policy Yet the demands of taking on ten new countries concluding a constitutional treaty to accommodate decisionmaking and dissipating acrimony after the war in Iraq all complicate efforts to develop and enhance the EU s international presence This book considers the impact of enlargement with respect to the EU s perception of its international role in specific geographical regions The contributors discuss a range of global issues including the environment food policies development terrorism and the use of force Contributors include Stefan Fr hlich University of Erlangen Nuremberg Hanna Ojanen and Kristi Raik Finnish Institute of International Affairs Ulrike Guerot German Marshall Fund Berlin Office Stanislaw Tekieli Center for Eastern Studies Warsaw Michael Leigh European Commission Directorate General for External Affairs Henri Barkey Lehigh University Anne Marie LeGloannec Centre d Etudes et de Recherches Internationales Foundation Nationale des Sciences Politiques Stanislav Tkachenko St Petersburg University Nicolae Idu European Institute of Romania Ulrich Weisser Esther Brimmer Chantal de Jonge Oudraat and David Michel Center for Transatlantic Relations Johns Hopkins SAIS Daniel Gros CEPS Angel Ubide Tudor Investments Patrick Cronin CSIS and Antonio Missoroli EU Institute for Security Studies Congressional Record United States. Rauchhaus,2001 No proceedings publication was planned when political scientists gathered in Berkeley in the spring of 1998 for a conference on NATO enlargement but by the end of it they decided that too many important issues and ideas had been brought to up let scatter undocumented The ten essays evaluate the pros and cons of enlarging the alliance explain why it was expanded eastward and recommend which countries if any should be offered membership in the future Distributed in the US by ISBS c Book News Inc The Debate on NATO Enlargement United States. Congress. Senate. Committee on Foreign Relations,1998 **Enlargement of the European Union** Graham Avery,Fraser Cameron,1998-03 This book is aimed at an academic and general audience It provides a comprehensive and authoritative review of the process of enlarging the European Union from 15 member states to include the 10 countries of

central and eastern Europe as well as the Mediterranean candidates It also contains a note on NATO expansion extensive documentation and a bibliography on enlargement This title is published in conjunction with UACES the University Association for Contemporary European Studies UACES web site can be found at [www.uaces.org](http://www.uaces.org) **The Nation** ,1997-07

**The Enlargement of Europe** Stuart Croft,1999 What will happen to the EU in the wake of enlargement What are the institutional and policy making changes in light of enlargement This book newly available in paperback deals with the theoretical conceptual and historical processes that led to European Union enlargement It discusses the effects of enlargement on selected European Union policies agriculture single market foreign security and defence policy immigration and looks at the effect of the institutional reforms that were made at Amsterdam and Nice as well as considering the significance of the debates on the Constitution It contains chapters by leading European scholars from both sides of the Atlantic The chapters report current research and employ a variety of methodological and theoretical perspectives This book is unique in looking at the issues that the EU faces in the aftermath of Eastern enlargement The EU, NATO and the Integration of Europe Frank Schimmelfennig,2003-12-18 Why did Western European states agree to the enlargement of the EU and NATO Frank Schimmelfennig analyzes the history of the enlargement process and develops a theoretical approach of rhetorical action to explain why it occurred While rationalist theory explains the willingness of East European states to join the NATO and EU it does not explain why member states decided to admit them Using original data Schimmelfennig shows that expansion to the East can be understood in terms of liberal democratic community building Drawing on the works of Jon Elster and Erving Goffman he demonstrates that the decision to expand was the result of rhetorical action Candidates and their supporters used arguments based on collective identity norms and values of the Western community to shame opponents into acquiescing to enlargement This landmark book makes an enormous contribution to theory in international relations and to the study of European politics **NATO's Role in European Stability** Stephen A.
