Deliberative Democracy Jürg Steiner, 2012-06-21 Examines the interplay between the normative and empirical aspects of the deliberative model of democracy

Is Europe Listening to Us? Raphaël Kies, 2016-05-06 How can the European Union engage and connect with the people it aims to represent What initiatives and schemes have been used to engage EU citizens To what extent can such procedures be considered a move forward towards a more participative and democratic Europe This collection of internationally recognised specialists in European integration and innovative democratic practices seek to answer these key questions explore European citizens thoughts and opinions about the EU and evaluate the governing elite s attempts to engage with the public It offers critical analysis of EU justifications and strategies for implementing Deliberative Citizens Involvement Projects and focuses on some of the major participative experiences trialled and implemented by EU institutions By comparing these different attempts to increase and bolster the participation of EU citizens and evaluating their impact the book offers valuable and original material on the civic involvement of EU citizens and the legitimacy of the EU decision making process

Representation and Democracy in the EU Richard Bellamy, Sandra Kröger, 2016-04-14 This book explores the various ways in which citizens are represented in EU policy making Most accounts naturally focus on the European Parliament as the prime source of democratic representation This collection focuses instead on four other channels that are as and often more important namely representation via governments national parliaments civil society organisations and directly via referenda Based on original research the book combines democratic theory with detailed empirical analysis to provide an innovative timely and up to date evaluation of the nature of representation in the EU Policy advisors practitioners and those scholars interested in democracy and the European Union will find this volume to be a valuable resource This book was published as a special issue of the Journal of European Integration

Criminalising Dissent Aytekin Kaan Kurtul, 2025-03-31 This book addresses one of the oldest political offences in the European continent l se majest in light of its historical evolution and the threat it poses to a democratic public sphere in modern day Europe The Republic of Turkey which serves as the focal point of this book epitomises the chilling ab use of l se majest laws due to the sheer number of criminal investigations on the basis of l se majest as well as the relatively low threshold for permissible criticism in defamation cases concerning the head of state In this regard through a comparative analysis encompassing multiple European jurisdictions and international human rights law this work illustrates that the excesses in Turkey should not be treated as an alien practice but rather as a caution for liberal political systems in Europe in view of the Western European origins of Turkish l se majest and the erosion of the rule of law Thus the volume stands as both a warning and a call for the abolition of l se majest laws as a democratic necessity beyond their inherent contradiction with state obligations stemming from international human rights law As a comprehensive work on European l se majest this book will function as a point of reference for legal scholars and practitioners alike as it offers a historical and theoretical background in addition to its rich

commentary on how these majest cases are assessed by domestic criminal courts and international human rights bodies The book will also be of use to political scientists and journalists who wish to learn more about how heads of state can effectively become immune to criticism through the use of criminal law and what can be done when faced with a majest charge for doing one's job

As the power and scope of the European Union moves further beyond traditional forms of international cooperation between sovereign states it is important to analyse how these developments are impacting upon national institutions and processes of democratic representation and legitimacy in the member countries The authors in this book identify four core processes of democratic governance present in any democratic political system that link societal and state processes of decision making opinion formation interest intermediation national executive decision making and national parliamentary scrutiny From a normative perspective they discuss what impacts this process of Europeanization has on democracy in the evolving system They conclude that more changes are seen within the state centric than in the societal centred processes of democracy thus the public seems to have been left behind in the process of constructing Europe The empirical research and normative discussion presented in this book are designed to further our knowledge concerning the Europeanization of social and state processes of democracy and to contribute to the continuing dialogue on democracy in the European Union This book will be of great interest to academics and researchers of political science public policy and international relations as well as those interested in European studies and comparative politics
