Evaluating Performance Winner Melissa Carey:

The Death of Public School Cara Fitzpatrick, 2023-09-12 A Pulitzer Prize winning journalist shows how conservatives have pushed for a revolution in public education one that threatens the existence of the traditional public school America has relied on public schools for 150 years but the system is increasingly under attack With declining enrollment and diminished trust in public education policies that steer tax dollars into private schools have grown rapidly To understand how we got here *The Death of Public School* argues we must look back at the turbulent history of school choice Cara Fitzpatrick uncovers the long journey of school choice a story full of fascinating people and strange political alliances She shows how school choice evolved from a segregationist tool in the South in the 1950s to a policy embraced by advocates for educational equity in the North to a conservative strategy for securing government funds for private schools in the twenty first century As a result education is poised to become a private commodity rather than a universal good *The Death of Public School* presents the compelling history of the fiercest battle in the history of American education one that already has changed the future of public schooling

The Sweet Spot Christine Carter, Ph.D., 2017-06-06. Learn how to achieve more by doing less. Live in that zone you've glimpsed but can't seem to hold on to: the sweet spot where you have the greatest strength but also the greatest ease. Not long ago, Christine Carter, a happiness expert at UC Berkeley's Greater Good Science Center and a speaker, writer, and mother, found herself exasperated by the busyness of modern life: too many conflicting obligations and not enough time, energy, or patience to get everything done. She tried all the standard techniques: prioritizing, multitasking, delegating, even napping, but none really worked. Determined to create a less stressful life for herself without giving up her hard-won career success or happiness at home, she road-tested every research-based tactic that promised to bring more ease into her life. Drawing on her vast knowledge of the latest research related to happiness, productivity, and elite performance, she followed every strategy that promised to give her more energy or that could make her more efficient, creative, or intelligent. Her trials and errors are our reward.

In The Sweet Spot, Carter shares the combination of practices that transformed her life from overwhelmed and exhausting to joyful, relaxed, and productive. From instituting daily micro-habits that save time to bigger picture shifts that convert stress into productive and creative energy, The Sweet Spot shows us how to say no strategically and when to say yes with abandon, make decisions about routine things once to free our minds to focus on higher priorities, stop multitasking and gain efficiency, take recess in sync with the brain's need for rest, use technology in ways that bolster instead of sap energy, increase your ratio of positive to negative emotions. Complete with practical, easiest-thing tips for instant relief as well as stories from Carter's own experience of putting The Sweet Spot into action, this timely and inspiring book will inoculate you against The Overwhelm, letting you in on the possibilities for joy and freedom that come when you stop trying to do everything right and start doing the right things.
