Flores, Katrina S. Rogers, 2019-05-24 In the most recent Democracy Index the Economic Intelligence Unit downgraded the United States from a full democracy to a flawed democracy Democracy Civic Engagement and Citizenship in Higher Education takes a hard look at the state of American democracy today through the lens of one of the nation's most important actors colleges and universities Democracy is more than voting it includes a wide range of democratic practices and depends on a culture of civic participation Critical for strengthening democracy is the role that higher education leaders play in educating their constituencies about their responsibilities of citizenship During a period of time when higher education is under pressure to meet 21st century workforce needs the authors here exhort to remember the public mission of education to serve the needs of the democracy a government by the people means that the people must be ready to govern It is in this spirit that these stories are offered to show how institutions across the country are reclaiming and reinvigorating one of the essential pillars upon which American democracy is based **The Know-How of Public Leaders in Collective Politics** Lucas Díaz, 2024-06-24 From small local associations to national social movements this work demonstrates how we can make more meaningful assertions about what leaders do and how they do it to better push for systemic social change **Awakening Democracy through Public Work** Harry C. Boyte, 2021-04-30 In the face of authoritarian divisive trends and multiplying crises when politics as usual is stymied Awakening Democracy through Public Work shows it is possible to build foundations for a democratic awakening grounded in deep American traditions of a citizen centered commonwealth Awakening Democracy through Public Work begins with the story of Public Achievement a youth civic education and empowerment initiative with roots in the civil rights movement It describes Public Achievement's first home in St Bernard's a low income Catholic elementary school in St Paul Minnesota and how the program spread across the country and then abroad giving birth to the larger concept of public work In Public Achievement young people practice citizen politics as they tackle issues ranging from bullying racism and sexual harassment to playground improvements curriculum changes and better school lunches They develop everyday political skills for working across differences and making constructive change Such citizen politics more like jazz than a set piece of music involves the interplay and negotiation of diverse interests and views sometimes contentious sometimes harmonious Public Achievement highlights young people's roles as co creators builders of schools communities and democratic society They are not citizens in waiting but active citizens who do public work Awakening Democracy through Public Work also describes how public work can find expression in many kinds of work from education and health to business and government It is relevant across the sweep of society People have experimented with the idea of public work in hundreds of settings in thirty countries from Northern Ireland and Poland to Ghana and Japan In Burundi it birthed a national initiative to rework relations between villagers and

police In South Africa it helped people in poor communities to see themselves as problem solvers rather than simply consumers of government services In the US at Denison University public work is being integrated into dorm life At Maxfield School in St Paul it is transforming special education In rural Missouri it led to the emPowerU initiative of the Heartland Foundation encouraging thousands of young people to stay in the region In Eau Claire Wisconsin it generated Clear Vision a program providing government support for citizen led community improvements Public work has expanded into the idea of citizen professionals working with other citizens not on them or for them It has also generated the idea of civic science in which scientists see themselves as citizens and science as a resource for civic empowerment Awakening Democracy through Public Work shows that we can free the productive powers of people to work across lines and differences to build a better society and create grounded hope for the future

Acting Civically Susan A. Ostrander, Kent E. Portney, 2007 New multidisciplinary scholarship on civic engagement in America Coming to Critical Engagement Frank A. Fear, Cheryl L. Rosaen, Richard J. Bawden, Pennie G.

Foster-Fishman, 2006-05-16 Engagement is the label increasingly embraced by higher education to describe activities associated with serving the public interest What had been viewed previously as service to extension of and outreach from is now engagement with as faculty members students and staff collaborate with partners in community affairs This book describes how members of a faculty learning community have come to understand engagement as both intellectual endeavor and scholarly practice at the interface between academy and citizenry Coming to Critical Engagement argues that the academy has a moral imperative to participate deliberately and consistently in democratic and systemic discourse with the public **The Journal of Speculative Philosophy** William Torrey Harris, 2010 50 Years of the Freedom Charter

Raymond Suttner, Jeremy Cronin, Patrick Lekota, 2006 50 Years of the Freedom Charter is a new edition of a classic work banned for possession under the apartheid government The main body of the text prepared initially in 1986 has been left unaltered but the authors have added a substantial new introduction and a bibliography of some of the literature that was not then available within the country or emerged after publication of the book This book offers an elaborately illustrated and fascinating account of the making of the historic Freedom Charter in South Africa in 1955 The material is presented largely through the words of actual participants as recorded in interviews with the authors It includes a significant section on the contemporary relevance of the Freedom Charter today **Deliberation & the Work of Higher Education** John R. Dedrick, Laura Grattan, Harris Dienstfrey, 2008 This book edited by Kettering Foundation Vice President and Program

Director John Dedrick along with Laura Grattan and Harris Dienstfrey demonstrates how deliberation can help higher education renew its mission of preparing citizens to sustain democracy and stimulate civic involvement on college campuses around the country. It also describes how deliberative dialogue in both the classroom and on campus can promote learning and problem solving amidst a culture of argument, debate, and polarization that is prevalent on campus and in society. First and foremost, however, it is a book about the possibilities of deliberation and the ways in which teachers and administrators can adapt it to their instructional and organizational goals.
