Field Manual FM 3-19.4 (Formerly FM 19-4) Military Police Leaders' Handbook Including Change 1 August 2002 United States Army, 2012-08-13

This field manual FM addresses military police (MP) maneuver and mobility support, MMS area security, AS internment and resettlement, I R law and order, LO, and police intelligence operations (PIO) across the full spectrum of Army operations. Although this manual includes a discussion of corps and division MP elements, it primarily focuses on the principles of platoon operations and the tactics, techniques, and procedures (TTP) the platoon uses to accomplish its mission. This FM provides the capabilities and organization of the MP, demonstrates the flexibility and diversity of MP in adapting to any mission throughout the full spectrum of Army operations, and characterizes the MP as a combat force multiplier. Additionally, this manual identifies the fact that the Army will not conduct operations alone and defines the role of the MP in support of joint, multinational, and interagency operations. The MP TTP are organized by the MP functions of MMS, AS, I R, LO, and PIO, with supporting tasks both individual and collective to help illustrate the functions.

Field Manual Fm 7-15 - the Army Universal Task List Including All Changes Up to Change 9, Issued December 9, 2011 United States Army, 2012-02-04

Field Manual FM 7-15, The Army Universal Task List including all changes up to Change 9, issued December 9, 2011, describes the structure and content of the Army Universal Task List (AUTL). The AUTL is a comprehensive but not all-inclusive listing of Army tasks, missions, and operations. Units and staffs perform these tasks, mission and operations, or capability at corps level and below. For each task, the AUTL provides a numeric reference hierarchy: a task title, a task description, a doctrine reference, and in most cases, recommended measures of performance (MOP) measures for training developers to develop training and evaluation outline evaluation criteria for supporting tasks. The task proponent is responsible for developing the training and evaluation outlines that support each AUTL task. As a catalog, the AUTL captures doctrine as it existed on the date of its publication. The AUTL can help commanders develop a mission essential task list (METL). It provides tasks, missions, and operations or capabilities for a unit, company sized and above, and staffs. Commanders should use the AUTL as a cross reference for tasks. Commanders may use the AUTL to supplement their core training focused METL or the directed training focused METL as required. FM 7-0 and FM 7-1 discuss in detail METL development and requirements. The primary source for standards for most Army units is their proponent approved individual

and collective tasks Proponents revise standards when the factors of mission enemy terrain and weather troops and support available time available civil considerations METT TC significantly differ from those associated with a task training and evaluation outline Significant differences in METT TC may include new unit equipment a table of organization force packaging decisions during deployment or new unit tasks Proponents and trainers will use the unit s assigned table of organization and equipment as the basis for mission analysis during the analysis phase of the Systems Approach to Training process Trainers may use the AUTL as a catalog of warfighting function tasks when developing collective tasks The AUTL is not all inclusive If the proponent or school identifies or develops a new AUTL task requirement the new task will be provided to the Collective Training Directorate for approval and the Combined Arms Doctrine Directorate for input to AUTL revision Task proponents and schools write and define the conditions and standards training and evaluation outlines for individual and collective tasks which support the AUTL The AUTL does not include tasks Army forces perform as part of joint and multinational forces at the strategic and operational levels Those tasks are included in the Universal Joint Task List UJTL The UJTL defines tasks and functions performed by Army elements operating at the operational and strategic levels of war The UJTL provides an overall description of joint tasks to apply at the national strategic theater strategic operational and tactical levels of command The UJTL also provides a standard reference system used by United States Army Training and Doctrine Command TRADOC combat developers for analysis such as front end analysis of force element capabilities Each military Service is required to publish its own tactical task list to supplement the UJTL The UJTL bibliography includes the other Services task lists The AUTL is the Army supplement to the UJTL
